2011 Mathematics HSC Examination 'Sample Answers' Question 8 (a) (i) By the cosine rule: $22^2 = x^2 + 20^2 - 2 \cdot 20 \cdot x \cdot \cos 60^\circ$ $484 = x^2 + 400 - 20x$ $0 = x^2 - 20x + 84$. Question 8 (a) (ii) Solve quadratic from part (i): $x = \frac{20 \pm \sqrt{20^2 - 4 \cdot 84}}{2} = \frac{20 \pm \sqrt{400 - 336}}{2} = \frac{20 \pm \sqrt{64}}{2} = \frac{20 \pm 8}{2}$. Since the triangle is acute angled, ie $\angle LPS = 60^\circ$, only the positive solution applies. $x = 14$

A Topic Index for 2002-2016 past HSC General Mathematics and Mathematics General 2 papers are also included. This title helps you get the results you want by practising actual HSC papers and answering HSC-level questions.

MAHARASTRA HSC QB Malcolm Forbes said “Education's purpose is to replace an empty mind with an open one” and this is something which is always followed by Maharashtra State Board of Secondary & Higher Education (MSBSHSE). The aim of the Board is not just to let learners obtain basic knowledge but to make them life-long learners. The purpose of this book is to nurture individuality and thus enhance one's innate potentials which help in increasing the self-study mode for students. This book strengthens knowledge and attitude related to subject. This book is designed in such a way that students can set their own goals and can improve their problem solving and thinking skills. This book is strictly as per the latest Maharashtra Board Curriculum for HSC Exams. It contains variety of questions from latest textbooks. It contains all types of questions like VSA Questions (Very Short Answer), SA Questions (Short Answer), MCQs (Multiple Choice Questions) and LA Questions (Long Answer). A synopsis is given for every chapter which contains important points from that chapter. Each chapter has high quality figures wherever required for better, fast and clear understanding. OSWAAL HSC Question Bank is different and better in terms of High Quality Questions which are developed by 'OSWAAL

Expert Panel'. The Question Bank is strictly based on the latest MSBSHSE Textbooks and is arranged 'TOPIC-WISE' where each Topic from every Chapter is explained in detail. Through OSWAAL Books students are taught how to think, not what to think. We at OSWAAL Books try to use quality content, standard language, creativity and high quality figures, which makes learning easy and fun. This is one of the reasons that the scope of this book extends from students to teachers. Teachers can use this book as a perfect teaching guide and students can use this book for good learning and practice.

This book reproduces the actual HSC General Maths examinations from 2001 to 2011 and also includes worked solutions so you can correct your work and understand where you can improve further.

Excel Success One HSC General Mathematics contains 2001-2011 past HSC questions with detailed worked answers written by experienced HSC markers and a Mark Maximizer Guide. This title helps you get the results you want by practising actual HSC papers and answering HSC-level questions.

This book reproduces the actual HSC General Maths examinations from 2001 to 2011 and also includes worked solutions so you can correct your work and understand where you can improve further.

Hydrogen Economy: Supply Chain, Life Cycle Analysis and Energy Transition for Sustainability explores the challenges for the transition into a sustainable hydrogen economy. In this book, experts from various academic backgrounds discuss the tools and methodologies for the analysis, planning, design and optimization of hydrogen supply chains. They examine the available technologies for hydrogen production, storage, transport, distribution and energy conversion, providing a cross cutting perspective on their sustainability. Environmental, social and economic aspects are considered, allowing for a more complete life cycle assessment of the entire supply chain. Methods and frameworks for multi-criteria decision making for the sustainable implementation of hydrogen systems are also covered. Providing a broad overview of the subject and well-recognized tools to manage hydrogen sustainability, this book is a useful resource for engineering researchers and PhD students in energy, environmental and industrial areas, energy economy researchers, practicing hydrogen energy engineers and technicians, energy and environmental consultants, life cycle assessment practitioners and consultants. Provides a broad perspective of the issues related to environmental, social and economic sustainability of hydrogen energy and its future perspectives Presents the current applied research and available tools for managing and assessing hydrogen energy sustainability, such as LCA, optimization, multi-criteria decision making and supply chain optimization Explores how experts in the field handle all issues related to the application of life cycle assessment for hydrogen production, storage, transport, distribution and end use

This comprehensive study guide covers the complete HSC Preliminary Senior Science course and has been specifically created to maximise exam success.
