The strengths and abilities children develop from infancy through adolescence are crucial for their physical, emotional, and cognitive growth, which in turn help them to achieve success in school and to become responsible, economically self-sufficient, and healthy adults. Capable, responsible, and healthy adults are clearly the foundation of a well-functioning and prosperous society, yet America's future is not as secure as it could be because millions of American children live in families with incomes below the poverty line. A wealth of evidence suggests that a lack of adequate economic resources for families with children compromises these children's ability to grow and achieve adult success, hurting them and the broader society. A Roadmap to Reducing Child Poverty reviews the research on linkages between child poverty and child well-being, and analyzes the poverty-reducing effects of major assistance programs directed at children and families. This report also provides policy and program recommendations for reducing the number of children living in poverty in the United States by half within 10 years.

## Read Free 2013 2014 Poverty Guidelines

The Legal Services Corporation (LSC) is a private, nonprofit, federally funded corporation that helps provide legal assistance to low-income people in civil (i.e., noncriminal) matters. The primary responsibility of the LSC is to manage and oversee the congressionally appropriated federal funds that it distributes in the form of grants to local legal services providers, which in turn give legal assistance to low-income clients in all 50 states, the District of Columbia, the U.S. territories of Guam and the Virgin Islands, the Commonwealth of Puerto Rico, and Micronesia (which includes the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and Palau). The authorization of appropriations for the LSC expired at the end of FY1980. Since then the LSC has operated under annual appropriations laws. Moreover, since FY1996 all of the LSC appropriations laws have included language that restricts the activities of LSC grantees. Pursuant to P.L. 113-164 (the Continuing Appropriations Resolution, 2015), the LSC was funded for FY2015 at the FY2014 rate of \$365.0 million through December 11, 2014, or enactment of applicable appropriations legislation. Pursuant to P.L. 113-235 (the Consolidated and Further Continuing Appropriations Act, 2015), the LSC is funded for FY2015 at \$375.0 million. For FY2016, the Obama Administration requested \$452.0 million for the LSC. The Administration's FY2016 budget request included

## Read Free 2013 2014 Poverty Guidelines

\$416.4 million for basic field programs and required independent audits, \$19.5 million for management and grants oversight, \$5.0 million for client self-help and information technology, \$5.1 million for the Office of the Inspector General, \$1.0 million for loan repayment assistance, and \$5.0 million for a pro bono innovation fund. Under the LSC's competitive process, legal services providers in every jurisdiction bid to become the LSC grantee for a designated service area in a state. During 2013, the LSC funded 134 local programs/grantees in 799 offices employing 4,193 attorneys. Local programs establish their own priorities and financial eligibility criteria subject to the LSC limits that stipulate that clients served may not have household income that exceeds 125% of the federal poverty guidelines, with limited exceptions for some household incomes of up to 200% of those guidelines. In 2013, 71% of LSC clients were females and 29% were males. The majority of LSC clients (83%) were between the ages of 18 and 59, 15% were age 60 or older, and 2% were under the age of 18. In 2013, 46% of LSC clients were non-Hispanic white, 28% were non-Hispanic black, almost 9% were of other races, and 17% were Hispanic. In 2013, LSC grantees closed 758,689 cases involving issues primarily related to families (divorce, child support, etc.), housing, income maintenance, consumer finance, and health.

Applying lessons from history to the reality of poverty today in the United States—the most affluent country in the world—this book analyzes contributing factors to poverty and proposes steps to relieve people affected by it. • Merges theory, real-life stories, and data analysis for a comprehensive view of poverty • Addresses poverty in the United States through an interdisciplinary approach • Offers proactive measures to reduce the U.S. poverty level • Emphasizes the value of learning from history to stop mistakes that can still be avoided

Children living in poverty are more likely to have mental health problems, and their conditions are more likely to be severe. Of the approximately 1.3 million children who were recipients of Supplemental Security Income (SSI) disability benefits in 2013, about 50% were disabled primarily due to a mental disorder. An increase in the number of children who are recipients of SSI benefits due to mental disorders has been observed through several decades of the program beginning in 1985 and continuing through 2010. Nevertheless, less than 1% of children in the United States are recipients of SSI disability benefits for a mental disorder. At the request of the Social Security

## Read Free 2013 2014 Poverty Guidelines

Administration, Mental Disorders and Disability Among Low-Income Children compares national trends in the number of children with mental disorders with the trends in the number of children receiving benefits from the SSI program, and describes the possible factors that may contribute to any differences between the two groups. This report provides an overview of the current status of the diagnosis and treatment of mental disorders, and the levels of impairment in the U.S. population under age 18. The report focuses on 6 mental disorders, chosen due to their prevalence and the severity of disability attributed to those disorders within the SSI disability program: attention-deficit/hyperactivity disorder, oppositional defiant disorder/conduct disorder, autism spectrum disorder, intellectual disability, learning disabilities, and mood disorders. While this report is not a comprehensive discussion of these disorders, Mental Disorders and Disability Among Low-Income Children provides the best currently available information regarding demographics, diagnosis, treatment, and expectations for the disorder time course - both the natural course and under treatment.

and current information on selected measures of morbidity, mortality, health care utilization and access, health risk factors, prevention, health insurance, and personal health care expenditures.

This annual overview report of national trends in health statistics contains a Chartbook that assesses the nation's health by presenting trends and current information on selected measures of morbidity, mortality, health care utilization and access, health risk factors, prevention, health insurance, and personal health-care expenditures. Chapters devoted to population characteristics, prevention, health risk factors, health care resources, personal health care expenditures, health insurance, and trend tables may provide the health/medical statistician, data analyst, biostatistician with additional information to complete experimental studies or provide necessary research for pharmaceutical companies to gain data for modeling and sampling. Undergraduate students engaged in applied mathematics or statistical compilations to graduate students completing biostatistics degree programs to include statistical inference principles, probability, sampling methods and data analysis as well as specialized medical statistics courses relating to epidemiology and other health topics may be interested in this volume.
