What do agriculture graduates do? One in ten agriculture graduates are working as managers in agriculture and horticulture. Chartered surveyor is the second most popular occupation. Others become farm workers, agricultural scientists and farmers.

What can I do with an agriculture degree? | Prospects.ac.uk

16 July 2020, Paris/Rome - The fight against the global COVID-19 pandemic is causing unprecedented uncertainties in global food supply chains, with potential bottlenecks in labour markets, input industries, agriculture production, food processing, transport and logistics, as well as shifts in demand for food and food services. In the short term, the economic and social impacts of the pandemic ...

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

In Afghanistan, the U.S. has begun to implement the new strategy articulated by Pres. Obama in Dec. 2009. The U.S. military and civilian surge is intended to create an 18-month window of opportunity to strengthen the Afghan government's ability to provide for its security and deliver essential services to its people. The U.S. gov't needs to improve the way it designs and implements reconstruction programs. More attention must be paid in these 4 areas: matching the appropriate human and financial resources to achieve policy objectives; developing metrics to measure project and program results to ensure that reconstruction goals are being met; providing better oversight of contractors; and increasing efforts to deter corruption.
