A site at the edge of the floodplain at Chogi Mami, dated to 7500 bp, provides probably the earliest evidence of irrigation canals (Roberts, 1989). Later occupation of the floodplain (6500 bp) took place on levees and allowed the abstraction of

Alluvial Geoarchaeology Many archaeological sites are buried by alluvium in floodplain and terrace settings. Finding and studying these sites can provide new insights into how river systems evolved throughout the Holocene. This topic has long

# Bookmark File PDF Alluvial Geoarchaeology Floodplain

been a staple of Geoarchaeology,  
given the close relationships between  
peoples and rivers.
