An APA citation generator is a software tool that will automatically format academic citations in the American Psychological Association (APA) style. It will usually request vital details about a source — like the authors, title, and publish date — and will output these details with the correct punctuation and layout required by the official APA style guide.

~~FREE APA 6 & APA 7 Citation Generator [Updated For 2020 ...~~

Multiple authors in APA. A standard source reference begins with the author ' s surname, followed by a comma, then the initial (s) of his or her first name. If there are multiple authors, place a comma between each of the author names and an ampersand ( " & " ) before the last author ' s name. If there are more than eight authors, list the first six followed by an ellipsis " ... " followed by the last author.

~~APA reference page | Page formatting & creating references~~

A list of all sources cited in the paper must be included at the end of the paper. The title of this list is "References" and must begin on a separate page after the last page of text. This heading should be centered on the page. Format citations with a hanging indent, double-spaced and with no extra lines between entries.
