In non-marketing lingo, Apple Music is built around two major components: iCloud Music Library, which combines your purchased music library and ripped tracks in one place; and the Apple Music streaming catalog, where you can find more than 10 million tracks from artists around the world. These two parts live side by side in the Music app: You can keep each separate by only streaming the Apple Music catalog, or you can add streaming songs to your offline Music library, where they can be mixed ...

Mastering Apple Music - The Ultimate iTunes User Guide on ...

Apple Music is, to quote the company, "All the ways you love music. All in one place." It offers a music subscription service, curated playlists, an always-on 24/7 radio station, and access to your Mac's library from any devices with iCloud Music Library. Naturally, such an ambitious service isn't without its complications.
