This guideline covers recognising, diagnosing and managing attention deficit hyperactivity disorder (ADHD) in children, young people and adults. It aims to improve recognition and diagnosis, as well as the quality of care and support for people with ADHD. In September 2019, we amended the recommendation on assessment for people starting medication for ADHD to indicate that an ECG is not needed before starting stimulants, atomoxetine or guanfacine if cardiovascular history and examination are ...

disorder ... - NICE

Attention deficit hyperactivity disorder (ADHD) is a behavioural syndrome characterized by hyperactivity, impulsivity, and inattention. ADHD should be suspected if the core symptoms of hyperactivity, inattention, and/or impulsivity have been present since childhood. These core symptoms are age-inappropriate and result in significant psychological, social, and/or educational functional impairment.

Attention deficit hyperactivity disorder - CKS | NICE

In March 2018, this quality standard was updated to reflect changes to the updated NICE guideline on attention deficit hyperactivity disorder. Statement 5 was removed and changes were made to the data sources, definitions and source guidance sections throughout.

## Attention deficit hyperactivity disorder - NICE

Description of condition. Attention deficit hyperactivity disorder (ADHD) is a behavioural disorder characterised by hyperactivity, impulsivity and inattention, which can lead to functional impairment such as psychological, social, educational or occupational difficulties. While these symptoms tend to co-exist, some patients are predominantly hyperactive and impulsive, while others are principally inattentive.

Evidence | Attention deficit hyperactivity disorder ... - NICE

Attention deficit hyperactivity disorder (ADHD) is a condition that affects people's behaviour. People with ADHD can seem restless, may have trouble concentrating and may act on impulse. Symptoms of ADHD tend to be noticed at an early age and may become more noticeable when a child's circumstances change, such as when they start school.
