is happening in your town, why it's happening, who is behind it, and what you can do to stop it. BEHIND THE GREEN MASK: U.N. Agenda 21 is 172 pages of truth. Part history, part current events, part hand-to-hand combat, and part blueprint for keeping your freedom, this is one book that you'll put to work immediately. Boots on the ground and all hands on deck is the order of the day. Awareness is the first step in the Resistance.

The United States has surrendered to a foreign power! Impossible! But true! Agenda 21 is a United Nations program, inaugurated in 1992 and signed by our delegates. It became our law through executive order 12858 issued by Bill Clinton. The Obama administration is working feverishly to carry out this program through more than 900 executive orders designed by the fifty plus czars. Most people have never heard of Agenda 21. This administration is quietly at work turning us into a socialist state. To save our freedoms we must know what is being foisted on us even as you read this.

U.N. Agenda 21 has been in the works for decades, spearheaded by environmentalists, foreign individuals, third world countries, and non-profit organizations around the world. In the name of protecting the environment, socialist global governance has been quietly implemented at all levels of government via government grants, public-private partnerships, and EPA regulations involving use of land and water, affecting every facet of our lives. Mandating population re-distribution in the name of biodiversity, re-educating our youth into sustainable everything, green jobs, green buildings, green cars, green energy, urban sprawl control, government bureaucrats from the United Nations and our own elected representatives are going to rezone us, resettle us, reduce our numbers, and tax us into the sustainable

community described in the Wildlands Project Map. Forcing us out of cars, into bike paths, light rail, walkways, greenbelts, ever more conservation areas forbidden to humans, urban boundary zones, and high-density areas, U.N. Agenda 21's 40 chapters will limit the behavior of individuals, organizations, and companies, covering everything we do in life. U.N. Agenda 21 and has been implemented administratively with help from ICLEI and little Congressional debate or involvement. Some of the provisions of U.N. Agenda 21 have been included in other laws passed. Presidential executive orders are forcing its implementation at the national level. Our sovereignty is at stake. We must stop U.N. Agenda 21 before it is too late. Every chapter of it violates our Constitution.

The values we hold dear, like life, liberty, and the pursuit of happiness form the foundation of who we are as a people and a nation. Our traditions and laws are based on these values and were originally designed to preserve human dignity. In my opinion, human dignity is as vital to life as the air we breathe and the water we drink. Without it, life perishes. As you will discover in this book, Agenda 21 believes you are a nuisance. Your very existence represents a stumbling block to a master plan that equates human life to a colony of ants, where the rights of the individual and human dignity are defined by servitude, not freedom, and where personal ambition must be expended for the greater good.

Agenda 21 is a non-binding, voluntarily implemented action plan of the United Nations with regard to sustainable development. It is a product of the UN Conference on Environment and Development (UNCED) held in Rio de Janeiro, Brazil, in 1992. Its purpose is an action agenda for the UN, other multilateral organizations, and individual governments around the world that can be executed at local, national, and global levels. The "21" in Agenda 21 refers to the 21st century.

Big Brother gets up close and personal. Do you know about

RFID (Radio Frequency Identification)? Well, you should, because in just a few short years, this explosive new technology could tell marketers, criminals, and government snoops everything about you. Welcome to the world of spychips, where tiny computer chips smaller than a grain of sand will trace everyday objects?and even people?keeping tabs on everything you own and everywhere you go. In this startling, eye-opening book, you'll learn how powerful corporations are planning a future where: Strangers will be able to scan the contents of your purse or briefcase from across a room. Stores will change prices as you approach-squeezing extra profits out of bargain shoppers and the poor. The contents of your refrigerator and medicine cabinet will be remotely monitored. Floors, doorways, ceiling tiles, and even picture frames will spy on you?leaving virtually no place to hide. microchip implants will track your every move?and even broadcast your conversations remotely or electroshock you if you step out of line. This is no conspiracy theory. Hundreds of millions of dollars have already been invested in what global corporations and the government are calling "the hottest new technology since the bar code." Unless we stop it now, RFID could strip away our last shreds of privacy and usher in a nightmare world of total surveillance?to keep us all on Big Brother's very short leash. What critics are saying about Spychips, the book: Spychips "make[s] a stunningly powerful argument against plans for RFID being mapped out by government agencies, retail and manufacturing companies." ?Evan Schuman, CIO Insight "The privacy movement needs a book. I nominate Spychips." ?Marc Rotenberg, EPIC "Brilliantly written; so scary and depressing I want to put it down, so full of fascinating vignettes and facts that I can't put it down." ?Author Claire Wolfe Spychips "makes a very persuasive case that some of America's biggest companies want to embed tracking technology into virtually everything
