'Blue Mind' explores the calming effect that water has on ...

In fact, the human body is about 60 percent water, and the brain is 75 percent water." "When you see water, when you hear water, it triggers a response in your brain that you're in the right place." He called it the Blue Mind and in well-being worlds we call it the neutral mind, neither overly positive nor overly negative.

Blue Mind - Humans Deep Connection With Water

Summary of Blue Mind in one sentence: Being by the water is good for you, as demonstrated by several studies. Only extend that out over almost 300 pages. That sounds depressingly cynical, and it is, but that's the thought that kept circling through my head while reading Blue Mind. That can be said about a lot of books, but this one bugged me ...
