M43 engine knocking, crackling and noise. This problem is mainly connected with DISA valve. You need to purchase DISA valve repair kit and use it for intake manifold repairing.

BMW M43B18 Engine | Turbo, tuning, oil, specs, problems

In 1993, the M40 was replaced by the BMW M43 SOHC engine and the M42 was replaced in 1996 by the BMW M44 DOHC engine. For the six-cylinder models, the E36 was launched with the then-new BMW M50 DOHC petrol engine. In 1993 the M50TU versions added single-VANOS (variable valve timing), which increased torque (peak power was unchanged).

BMW 3 Series (E36) - Wikipedia

In the use of cars with engines of BMW E36 m43 were identified and corrected a number of deficiencies that were not critical, but still spoiled the overall picture. So, in the first m43 was a weak pump and the tensioner mechanism.
