inherent shifts in favor of a more static way of being. But our bodies are wiser than we imagine. Moods are not an annoyance to be stuffed away, they are a finely-tuned feedback system that can tell us how best to manage our lives. Our changing moods let us know when our bodies are primed to tackle different challenges and when we should be alert to developing problems. They help us select the right tool for each of our many jobs. If we deny our emotionality, we deny the breadth of our talents. Over-prescribed medications can have devastating consequences for women in many areas of our lives--and even if we don't pop a pill, women everywhere are numbing their emotions with food, alcohol, and a host of addictive behaviors that deny the wisdom of our bodies and keep us from addressing the real issues that we face. Here, Dr. Julie Holland shares a better way.--From publisher description.
