Classworks Fiction and Poetry is part of a comprehensive series of teacher's resource books, covering Reception to Year 6. Classworks takes teacher resources back to basics: no filling, no padding, no waffle - just all the nuts and bolts you need for great lessons, built the way you want them.

This volume investigates the implications of how our brain directs our movements on decision-making. An extensive body of knowledge in chapters from international experts is presented as well as integrative group reports discussing new directions for future research. The understanding of how people make decisions is of central interest to experts working in fields such as psychology, economics, movement science, cognitive neuroscience, neuroinformatics, robotics, and sport science. For the first time the current volume provides a multidisciplinary overview of how action and cognition are integrated in the planning of and decisions about action. * Offers intense, focused, and genuine interdisciplinary perspective * Conveys state-of-the-art and outlines future research directions on the hot topic of mind and motion (or embodied cognition) * Includes contributions from psychologists, neuroscientists, movement scientists, economists, and others

The Adrenal Medulla, 1989-1991 offers a comprehensive review of the world literature on the adrenal medulla published during this period. The book emphasizes the role of the adrenal medulla in advancing our knowledge of neuroscience; for example, the Nobel Prize-winning technique of patch clamping has been applied to stimulus-secretion coupling in adrenal chromaffin cells. The book also discusses such topics as the ability to image the distribution of calcium within individual neural cells, the ability to measure individual packets of neurotransmitter as they are released from cells, and advances in the understanding of ionic channels, cell-to-cell interactions, cell proliferation, sympathoadrenal ontogeny, growth factors, enzymatic biosynthetic pathways, electron and proton transfer, and neural pathways. Topics covered in clinical medicine include recent progress in the transplantation of the adrenal medulla to the brain as a treatment for Parkinson's disease and the latest reports on pheochromocytoma. The Adrenal Medulla, 1989-1991 is an essential book for neurobiologists, neurochemists, experimental biologists, physiologists, cell biologists, and informed clinicians.

BPP Learning Media is an ACCA Approved Content Provider. Our partnership with ACCA means that our Study Texts, Practice & Revision Kits and iPass (for CBE papers only) are subject to a thorough ACCA examining team review. Our suite of study tools will provide you with all the accurate and up-to-date material you need for exam success.
