Packet Tracer Network CCNP labs. CCNP students can download labs to practice AAA (Radius authentication) and etherchannel. Wired 802.1x support has been added in Packet Tracer 7.2 and a lab will be released soon to provide 802.1x training for CCNP switch exam preparation.

Packet Tracer 7.3.1 labs - Packet Tracer Network

DHCP snooping is a Cisco Catalyst feature that determines which switch ports can respond to DHCP requests. Ports are identified as trusted and untrusted. The interfaces that connect to the switch should never send DHCP offer and should be consider untrusted.The switch should block those untrusted DHCP offer message message.only an interface that has been properly and manually configure as ...

DHCP Snooping - CCNP Switch

The 3550 is a layer 3 switch that is very affordable nowadays. It's similar to the 2950 but it also supports routing so you can use it for inter-VLAN routing and routing protocols like OSPF or EIGRP. Inter-VLAN routing is an important topic in CCNP SWITCH so you will need a layer 3 switch.

Cisco CCNP Switch Lab Equipment - NetworkLessons.com

This topology is very similar to what you will find in the CCNP SWITCH material.- C1 and C2 are the Core layer switches. D1 and D2 are the Distribution layer switches. A1 and A2 are the Access layer switches.
