Change: Principles of Problem Formation  
and Problem ...

One that occurs within a given system which itself remains unchanged (first-order change); and one whose occurrence changes the system itself (second-order change).

Change in context. A solution may itself be the problem. Change is not only possible, but already seething within the problem situation.

There are many ways to produce change in a  
persons life. But when change does occur,  
do we know how we produced it? Many  
times we do not. That's where books like  
this come into play. It is a very dense book,
