Expression Concept 15.1 Bacteria often respond to environmental change by regulating transcription 1. All genes are not “on” all the time. Using the metabolic needs of E. coli, explain why not. E. coli is not always making trp because when there is enough trp in the cell, it will activate the repressor and keep the RNA ...

Unfortunately, because the newest version of the AP Biology exam only began being administered in 2020, there aren't that many review books available for it. Still, because not much actually changed in terms of content between the 2013-2019 version of the test and the current version, it's OK to use books that target the 2013-2019 AP Biology exam.
