Roy Jenkins, a great statesman in his own right, wrote before his death a mega biography of this great man, without any nuances; Churchill was unpopular and considered crassly ambitious and arrogant in his political life from 1903 to 1939. Even then, he was considered a dangerous warmonger. In 1945, the voters luckily remembered who he was in

From the New York Times bestselling author of Churchill, a towering historical biography, available for the first time in paperback. William Gladstone was, with Tennyson, Newman, Dickens, Carlyle, and Darwin, one of the stars of nineteenth-century British life. He spent sixty-three of his eighty-nine years in the House of Commons and was prime minister four times, a unique accomplishment. From his critical role in the formation of the Liberal Party to his preoccupation with the cause of Irish Home Rule, he was a commanding politician and statesman nonpareil. But Gladstone the man was much more: a classical scholar, a wide-ranging author, a vociferous participant in all the great theological debates of the day, a voracious reader, and an avid walker who chopped down trees for recreation. He was also a man obsessed with the idea of his own sinfulness, prone to self-flagellation and persistent in the practice of accosting prostitutes on the street and attempting to persuade them of the errors of their ways. This full and deep portrait of a complicated man offers a sweeping picture of a tumultuous century in British history, and is also a brilliant example of the biographer's art.

Roy Jenkins follows up Churchill with a book of a very different shape; short and semi-autobiographical, but also full of the wit and erudition which make that book such a success. Each of the twelve cities are described with a mixture of architectural interest, topographical insight, and personal anecdote. Jenkins has three British cities: Cardiff, which was the metropolis of his Monmouthshire childhood, Birmingham which he represented in Parliament for 27 years, and Glasgow, which aroused in him an enthusiasm far transcending politics. Further afield there is Paris, Brussels, where he lived for four years as President of the European Commission; Bonn, and Berlin, surveyed from its pre-war splendour, through to its architectural resurgence of the 1990s, Naples and Barcelona. From Lord Jenkins's over a hundred visits to North America there emerge highly personal recollections of New York and a more objective view of the of Chicago. Dublin, so near to home and yet so distant, makes up the dozen. Twelve Cities is a fascinating and sparkling collection from one of our very finest writers

In his time, Harry S. Truman was one of the most under-rated presidents of the twentieth century. Succeeding the charismatic Roosevelt, he was often seen as an uninspiring leader, a poor diplomat and a fumbling politician. He was the first man to authorise the use of nuclear weapons, and was in office at the time when the multiplicity of hopes which arose at the end of the Second World War were inevitably disappointed. Nothing could be further from Roy Jenkins' view of him. This is the first biography of Truman to be written by an author with anything approaching the subject's own range of political experience, and Roy Jenkins brings to this book a quality of appreciation of Truman's political skills which has not been seen before. It is also the first biography to be written by a British author, giving it a new objectivity on the international affairs which occupied so much of Truman's presidency and by which he must be judged.

First published in 1989, this diary provides the background to two vital issues: our relations with the European Community and the state of politics in Britain. Few people are better qualified to know how we arrived where we are than Roy Jenkins. During the period of this diary he was President of the European Commission.

The diary provides a picture of the day-to-day life of the head of an international organization, of the conflicting pressures and grinding routine, of the importance of personal relationships with world leaders such as Helmut Schmidt, Val é ry Giscard d'Estaing, James Callaghan, Margaret Thatcher, Willy Brandt, Jean Monnet and Jimmy Carter. In addition to the political chronicle we have frank and sometimes unguarded revelations about the author, his tastes and preoccupations, from which emerges a man more imbued with public passion, more eccentric and with a more varied private life than many readers may expect. His subtle perception of people is revealed in brilliant portraits of, for example, Schmidt, pessimistic, streaked with melancholy, indiscreet and yet notably constructive, and Giscard d'Estaing, highly intelligent but with pretensions that sometimes make him faintly ludicrous. For those concerned with the way the world is developing and the impact of a civilized and essentially private personality on public events, European Diary is compulsory reading.

A masterly work by the New York Times bestselling author of Churchill and Gladstone A protean figure and a man of massive achievement, Franklin Delano Roosevelt was the only man to be elected to the presidency more than twice. In a ranking of chief executives, no more than three of his predecessors could truly be placed in contention with his standing, and of his successors, there are so far none. In acute, stylish prose, Roy Jenkins tackles all of the nuances and intricacies of FDR's character. He was a skilled politician with astounding flexibility; he oversaw an incomparable mobilization of American industrial and military effort; and, all the while, he aroused great loyalty and dazzled those around him with his personal charm. Despite several setbacks and one apparent catastrophe, his life was buoyed by the influence of Eleanor, who was not only a wife but an adviser and one of the twentieth century's greatest political reformers. Nearly complete before Jenkins's death in January 2003, this volume was finished by historian Richard Neustadt.

First published in 1984, this is the first biography of Stanley Baldwin for more than ten years, although there had been four in the preceding decade. This is strange, for Baldwin has recently begun to swim back into fashion. In part this is a function of growing nostalgia for his period of power, the 1920s and 1930s. Still more, however, it is " because Mrs Thatcher's brand of Conservative leadership has made him an object of contrasting interest in a way that Harold Macmillan's or Edward Heath's never did. When a new exponent of an alternative style temporarily achieves notice, it is now frequently suggested that he might be a new Baldwin. This reappraisal is therefore appropriately timed. It is written by a skilled political biographer, from a non-Conservative, although not personally unsympathetic, standpoint. Baldwin was born in 1867, the son of a rich Worcestershire ironmaster, and educated at Harrow and Trinity College, Cambridge. He then worked in the family business for twenty years. Although the most self-conscious countryman amongst British Prime Ministers of the past hundred years or more, he was not a country squire and never owned more than a few acres of land. He did not enter the House of Commons until he was forty, and was not even a junior minister until the threshold of fifty. Less than six years later, in 1923, he became Prime Minister and dominated British politics for the next fifteen years - the only man of this century to hold the highest office three times.
