The 70-Point Coin Grading Scale. When numismatists grade coins, they are assigned a numeric value on the Sheldon Scale. The Sheldon Scale ranges from a grade of Poor (P-1) to Perfect Mint State (MS-70). Originally coins were graded using adjectives to describe the condition of the coin (Good, Fair, Excellent, Etc.).

Coin Grading Made Simple

Seven simple steps to follow when coin grading Always study the coins in good light so that you can examine every minute detail, but keep 12 inches between the coin... Hold the coin you are grading by its edges and position it between your thumb and index finger. Use a magnifying glass or magnifier ...

NGC Coin Grading Scale. NGC uses the internationally accepted Sheldon grading scale of 1 to 70, which was first used in the United States in the late 1940s. This scale was adopted by NGC when it began operations in 1987 and is considered to be the industry standard. Below are NGC's grading standards for each numeric grade as well as major strike types and designations.

PCGS Grading Standards. In 1948, Dr. William Sheldon, a renowned numismatist, developed the Sheldon Scale, assigning grades from "1" through "70" to coins. The basis of Sheldon's theory was that a "70" would be worth 70 times as much as a "1." PCGS built its grading standards upon the Sheldon Scale when it introduced the concept of encapsulated, third-party grading in 1986.

Coins are graded according to NGC's grading standards, and a higher grade is not guaranteed. Fees are not refunded if a higher grade is not received. A coin submitted for ReGrade will be removed from its NGC holder by NGC staff and encapsulated with a new NGC holder, label and certification number, even if the grade does not change.

but the Professional Coin Grading Service (PCGS), and the Numismatic Guaranty Corporation (NGC) are the best-known two. These companies will grade a coin for a fee, certify the grade, and then seal the coin in a special tamper-proof holder as part of the certification process.

Coin Grading - How are collectable coins valued ...

Coin grading is the process of determining the grade or condition of a coin, one of the key factors in determining its value. A coin's grade is generally determined by five criteria: strike, preservation, luster, color, and attractiveness. Several grading systems have been developed.

Coin grading - Wikipedia

What Is PCGS Coin Grading? In the US PCGS stands for "professional coin grading service" and is marketed as the "standard for the rare coin industry". Dating back to the 80's it was a recognition that the industry needed a standard approach to grading scores and descriptions. The grading follows the sheldon framework described below under NGC ...

Grading Guide Many of the coins we sell on the site have a selectable Grade as an option. As an example we sell Proof and Choice Proof coins in several categories. The difference between the two is determined by us.

Grading Guide - The Coin Shop

The coin grading scale created by Dr. William Sheldon in 1949 was merged with the descriptive terms used earlier and was adopted by the American Numismatic Association (ANA), a non-profit group created in 1891. The ANA has been chartered by Congress since 1912. The American Numismatic Association's 0-70 point coin grading scale is summarized below.

United States Coin Grading Scale - Coin Collecting Guide ...

In general, the coin grading systems evaluate four characteristics of a coin: surface preservation, strike, lustre, and eye appeal. Surface preservation deals with the markings on the surface of a coin, how severe these markings are, and where they are placed. Strike looks at the level of detail, sharpness, and completeness of the coin's design.
