Use these 5 tips to improve your communication skills. Adjust Your Assumptions. Do not assume that people are listening to you. Individuals' demeanor or how they engage (eg, head nodding, saying "Yes" and "Uh-huh") may cause you to assume they understand, but these physical and verbal cues are reflex behaviors.

The pharmacy professionals in the videos are real. They have been asked to demonstrate some skills, attitudes and behaviours which may not reflect their daily practice. Many have found it difficult to include aspects of bad practice but you will see these demonstrated in some videos. We have also used placebos and dummy tablet boxes in some shoots.

~~Consultation skills for pharmacy practice: Assessment Guidance~~

Pharmacy communication skills can be improved with education and training [3, 14–16], and education standards highlight the importance of teaching communication [17–19]. What is known is that pharmacy students need appropriate training and education to develop suitable communication skills, as well as the opportunity to practice

Interpersonal skills These standards cover the aspects of performance and behaviour that involve any interaction with others. You must demonstrate your ability to communicate at all levels and to work with others in the pharmacy and healthcare team. In doing this, you will show that you possess the core characteristics of an empathetic healthcare professional:
