Supplemental materials of Caribbean History Core Course and Caribbean History Themes Vol I & II for Caribbean Secondary Examinations Council (CSEC).

This new book offers comprehensive coverage of the new CSEC syllabus, bringing history alive in the classroom with a range of activities and a lively written style that is suitable for all students. Written by experienced teachers and authors, and extensively reviewed across the Caribbean region, this title incorporates classroom-friendly content and activities to give students the opportunity to discuss, interpret and develop their critical analytical skills. It includes suggestions for debate, role play and source analysis as well as step-by-step guidelines to writing School-Based Assessment (SBA) research papers.

"Higher education in Latin America and the Caribbean has expanded dramatically in the past 15 years, as the average gross enrollment rate has more than doubled, and many new institutions and programs have been opened. Although higher education access has become more equitable, and higher education supply has become more varied, many of the 'new' students in the system are, on average, less academically ready than are their more advantaged counterparts. Furthermore, only half of higher education students, on average, complete their degree, and labor market returns to higher education vary greatly across institutions and programs. Thus, higher education is at a crossroads today. Given the region's urgency to raise productivity in a low-growth, fiscally constrained environment, going past this crossroads requires the formation of skilled human capital fast and efficiently. 'At a Crossroads: Higher Education in Latin America and the Caribbean' contributes to the discussion by studying quality, variety, and equity of higher education in Latin America and the Caribbean. The book presents comprehensive evidence on the recent higher education

expansion and evolution of higher education labor market returns. Using novel data and state-of-the-art methods, it studies demand and supply drivers of the recent expansion. It investigates the behavior of institutions and students and explores the unintended consequences of large-scale higher education policies. Framing the analysis are the singular characteristics of the higher education market and the market segmentation induced by the variety of students and institutions in the system. At this crossroads, a role emerges for incentives, information, accountability, and choice."

For many years, experiments using chimpanzees have been instrumental in advancing scientific knowledge and have led to new medicines to prevent life-threatening and debilitating diseases. However, recent advances in alternate research tools have rendered chimpanzees largely unnecessary as research subjects. The Institute of Medicine, in collaboration with the National Research Council, conducted an in-depth analysis of the scientific necessity for chimpanzees in NIH-funded biomedical and behavioral research. The committee concludes that while the chimpanzee has been a valuable animal model in the past, most current biomedical research use of chimpanzees is not necessary, though noted that it is impossible to predict whether research on emerging or new diseases may necessitate chimpanzees in the future.

There have been many great and enduring works of literature by Caribbean authors over the last century. The Caribbean Contemporary Classics collection celebrates these deep and vibrant stories, overflowing with life and acute observations about society. 'Tiger thought, To my wife, I man when I sleep with she. To bap (father), I man if I drink rum. But to me, I no man yet.' Trinidad is in the turbulent throes of the Second World War, but the war feels quite far away to Tiger - young and inexperienced, he sets out to prove his manhood and independence. With his child-bride Urmilla, shy, bewildered and anxious, with two hundred dollars in cash and a milking cow, he sets out into the wilderness of adulthood. There is no map or directions for him to follow, he must learn for himself and find his own way. Suitable for readers aged 15 and above.

Study Guides for CAPE have been developed and written by CXC to provide CAPE candidates in schools and colleges with resource materials to help them prepare for their exams. Matching the topics in the syllabus, the student-friendly structure and content enable students to develop their skills and confidence as they approach the examination.

The book explores the historical development and status of political and economic institutions in The Caribbean. The Caribbean institutional reality is studied vis-à-vis best international practices. The main objective is identifying positive aspects and institutional areas in need of improvement that could facilitate a

sustainable development path in The Caribbean.

"The Guide, in Part I, begins with a brief description of generalized CEA and how it relates to the two questions raised above. It then considers issues relating to study design, estimating costs, assessing health effects, discounting, uncertainty and sensitivity analysis, and reporting results. Detailed discussions of selected technical issues and applications are provided in a series of background papers, originally published in journals, but included in this book for easy reference in Part II."
