to the influx of new ideas from the West as to traditional religious and cultural insights. Gosling examines the effects of the introduction of Western science into India, and the relationship between Indian traditions of thought and secular Western scientific doctrine. He charts the early development of science in India, its role in the secularization of Indian society, and the subsequent reassertion, adaptation and rejection of traditional modes of thought. The beliefs of key Indian scientists, including Jagadish Chandra Bose, P.C. Roy and S.N. Bose are explored and the book goes on

education sector. India, as one of the world's fastest growing economies, currently enjoys what is termed a 'demographic dividend' meaning that, compared to most other countries, it has a relatively young working age population. In order to exploit this advantage, the author argues that India needs to make this young population economically productive through education. The chapters in the book address whether India has succeeded in doing so, both in terms of numbers educated and the quality of their education. The author draws on specialist surveys conducted by India's

Why is it important to have a revolutionary critical pedagogy? What are the new inter/disciplinary engagements possible within the university? What will it be like to live and learn in this university of the future? Drawing on these essential questions, this volume explores the political future(s) of the university. It does not take a simplistic recourse to the tenets of liberal democracy but seeks a more engaged positioning of the university space within

everyday practices of the social. It cross-examines the history of this 'ideal' university's relationship with the banal everyday, the 'apolitical' outside and what exceeds intellectual reason, to finally question if such historicizing of the university is necessary at all. Along with its companion *The Idea of the University: Histories and Contexts*, this brave new intervention makes a compelling foray into the political future(s) of the university. It will be of interest to academics, educators and students of the social sciences and humanities, especially education. It will
