This foodborne disease outbreak prevention manual is the first of its kind for the retail food service industry. Respected public health professional Hal King helps the reader understand, design, and implement a food safety management system that will achieve Active Managerial Control in all retail food service establishments, whether as part of a multi-restaurant chain or for multi-

Get Free Doentation Of Restaurant Management

System restaurant franchisees. According to the most recently published data by the Centers for Disease Control and Prevention (CDC), retail food service establishments are the most commonly reported locations (60%) leading to foodborne disease outbreaks in the United States every year. The Food and Drug Administration (FDA) has reported that in order to effectively reduce the major foodborne illness risk factors in retail food service, a food service business should use Food Safety Management Systems (FSMS); however less than 11% of audited food service businesses in a 2018 report were found using a well-documented FSMS. Clearly, there needs to be more focus on the prevention of foodborne disease illnesses and outbreaks in retail food
