Dynamic Hedging. by Nassim Nicholas Taleb
Dynamic Hedging Summary: This chapter introduces the theoretical framework for the analysis of the execution of dynamic hedging. A discussion of the issues related to the application of financial theory to the microstructure of dynamic hedging is provided.. Among these issues is the "continuous time problem", the "delta paradox".

Dynamic Hedging Taleb - pckvboc.bdxippn.helloawesome.co
Taleb has been a practitioner of mathematical finance, a hedge fund manager, and a derivatives trader. He is a scientific adviser at Universa Investments. Taleb considers himself less a businessman than an epistemologist of randomness, and says that he used trading to attain independence and freedom from authority.

Nassim Nicholas Taleb - Wikipedia
In a heuristic method that was repeated in Dynamic Hedging by one of the authors, (Taleb, 1997), Nelson, describe in a theory-free way many rigorously clinical aspects of his arbitrage business: the cost of shipping shares, the cost of insuring shares, interest expenses, the possibilities to switch shares directly between someone being long ...

Option traders use (very) sophisticated heuristics, never ...
Further, the standard dynamic hedging argument requires the exact specification of the risk-neutral stochastic process between t 0and t, something econometrically unwieldy, and which is generally reverse engineered from the price of options, as an arbitrage-oriented interpolation tool rather than as a representation of the process.
