CO-PUBLISHED BY ROUTLEDGE AND THE NATIONAL COUNCIL OF TEACHERS OF ENGLISH Grammar to Get Things Done offers a fresh lens on grammar and grammar instruction, designed for middle and secondary pre-service and in-service English teachers. It shows how form, function, and use can help teachers move away from decontextualized grammar instruction (such as worksheets and exercises emphasizing rule-following and memorizing conventional definitions) and begin considering grammar in applied contexts of everyday use. Modules (organized by units) succinctly explain common grammatical concepts. These modules help English teachers gain confidence in their own understanding while positioning grammar instruction as an opportunity to discuss, analyze, and produce language for real purposes in the world. An important feature of the text is attention to both the history of and current attitudes about grammar through a sociocultural lens, with ideas for teachers to bring discussions of language-as-power into their own classrooms.

An important contribution to the emerging body of research-based knowledge about English grammar, this volume presents empirical studies along with syntheses and overviews of previous and ongoing work on the teaching and learning of grammar for learners of English as a second/foreign language. It explores a variety of approaches, including form-focused instruction, content and language integration, corpus-based lexicogrammatical approaches, and social perspectives on grammar instruction. Nine chapter authors are Priority Research Grant or Doctoral Dissertation Grant awardees from The International Research Foundation for English Language Education (TIRF), and four overview chapters are written by well-known experts in English language education. Each research chapter addresses issues that motivated the research, the context of the research, data collection and

analysis, findings and discussion, and implications for practice, policy, and future research. The TIRF-sponsored research was made possible by a generous gift from Betty Azar. This book honors her contributions to the field and recognizes her generosity in collaborating with TIRF to support research on English grammar. *Teaching and Learning English Grammar* is the second volume in the *Global Research on Teaching and Learning English Series*, co-published by Routledge and TIRF.

Weaver extends her philosophy by offering teachers a rationale and practical ideas for teaching grammar not in isolation but in the context of writing.
