behind and what awaits beyond.

In the 1960s, the Second Vatican Council enacted the most sweeping changes the Catholic Church had seen in centuries. In readable and compelling prose, Mark S. Massa tells the story of the cultural war these changes ignited in the United States - a war that is still being waged today. Suddenly, one Sunday, the mass as the faithful had always known it was different, and so was the Church they had believed was timeless and unchanging. Once the Church opened the door to change, Massa argues, it could not be closed again. Skirmishes broke out over the proper way to worship. Soon, Catholics were bitterly divided over birth control, abortion, celibacy, female priests, and the authority of the Church itself. As he narrates these turbulent events, Massa takes us beyond stereotypes of liberals and conservatives, offering new insights into the last fifty years of American Catholicism.

Napalm was invented on Valentine ' s Day 1942 at a secret Harvard war research laboratory. It created an inferno that killed over 87,500 people in Tokyo—more than died in the atomic explosions at Hiroshima or Nagasaki—and went on to incinerate 64 Japanese cities. The Bomb got the press, but napalm did the work. Robert Neer offers the first history.

From the Chicago Conspiracy Trial and the O. J. Simpson trial to the Clarence Thomas/Anita Hill congressional hearings, legal and legislative proceedings in the latter part of the twentieth-century kept Americans spellbound. Situated on the shifting border between imagination and the law, trial plays edit, arrange, and reproduce court records, media coverage, and first-person interviews, transforming these elements into a performance. In this first book-length critical study of contemporary American documentary theater, Jacqueline O ' Connor examines in depth ten such plays, all written and staged since 1970, and considers the role of the genre in re-creating and revising narratives of significant conflicts in contemporary history. Documentary theater, she shows, is a particularly appropriate and widely utilized theatrical form for engaging in debate about tensions between civil rights and institutional power, the inconsistency of justice, and challenges to gender norms. For each of the plays discussed, including *The Trial of the Catonsville Nine*, *Unquestioned Integrity: The Hill/Thomas Hearings*, and *The Laramie Project*, O'Connor provides historical context and a brief production history before considering the trial the play focuses on. Grouping plays historically and thematically, she demonstrates how dramatic representation advances our understanding of the law's power while revealing the complexities that hinder society's pursuit of justice.

In most churches, Christian education for children is run by enthusiastic volunteers from the worshipping community. But how much support and training do they receive? Do they get the opportunity to explore and apply principles of child development or current theories of faith development? And to what extent are they supported by their ministers and congregations with a clear focus on children's work? Including empirical research and drawing on the author's extensive experience of working with children, *Faith in Children* offers a window into the process going on inside our children and enables those who work with them to understand what makes a particular child 'tick'. With insights into a range of teaching methods, learning styles and the unique

Over the course of the twentieth century, Catholics, who make up a quarter of the population of the United States, made significant contributions to American culture, politics, and society. They built powerful political machines in Chicago, Boston, and New York; led influential labor unions; created the largest private school system in the nation; and established a vast network of hospitals, orphanages, and charitable organizations. Yet in both scholarly and popular works of history, the distinctive presence and agency of Catholics as Catholics is almost entirely absent. In this book, R. Scott Appleby and Kathleen Sprows Cummings bring together American historians of race, politics, social theory, labor, and gender to address this lacuna, detailing in cogent and wide-ranging essays how Catholics negotiated gender relations, raised children, thought about war and peace, navigated the workplace and the marketplace, and imagined their place in the national myth of origins and ends. A long overdue corrective, *Catholics in the American Century* restores Catholicism to its rightful place in the American story.
