Fast Food Nation: The Dark Side of the All-American Meal ...

FAST FOOD NATION CHAPTER SUMMARIES Introduction "The whole experience of buying fast food has become so routine, so thoroughly unexceptional and mundane, that it is now taken for granted, like brushing your teeth or stopping for a red light. It has become a social custom as American as a small, rectangular, hand-held, frozen, and reheated apple pie."

Results Page 4 About Fast Food Nation Summary Of Chapter 7 ...

Fast Food Nation is a book all based on the history of the fast food industry. It talks about how it got it's start, "Ray Kroc, one of the founders of McDonald's... The organization cannot trust the individual; the individual must trust the organization." Ray Kroc founded McDonalds in the 1950's, which the book talks a lot about.

Fast Food Nation by matthew radich - Prezi

To a degree both engrossing and alarming, the story of fast food is the story of postwar America. Though created by a handful of mavericks, the fast food industry has triggered the homogenization of our society. Fast food has hastened the malling of our landscape, widened the chasm between rich and poor, fueled an epidemic of obesity, and propelled the juggernaut of American cultural imperialism abroad.

Fast Food Nation - LaGuardia Community College

Summaries An ensemble piece examining the health risks involved in the fast food industry and its environmental and social consequences as well.

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Every book tells a story . . . And the 70 titles in the Pocket Penguins series are emblematic of the renowned breadth and quality that formed part of the original Penguin vision in 1935 and that continue to define our publishing today. Together, they tell one version of the unique story of Penguin Books. Eric Schlosser's inimitable brand of hard-hitting yet always entertaining writing looks beneath the surface of American life to examine issues ranging from the black market to burgers. When Penguin published his expose Fast Food Nation in 2001, it sparked a storm in the fast food industry. This piece on the terrifying true cost of cheap meat shows why Schlosser has been instrumental in changing our attitudes to what we eat.

New York Times Bestseller: The shadowy world of "off the books" businesses—from marijuana to migrant workers—brought to life by the author of Fast Food Nation. America's black market is much larger than we realize, and it affects us all deeply, whether or not we smoke pot, rent a risqué video, or pay our kids' nannies in cash. In Reefer Madness, the award-winning investigative journalist Eric Schlosser turns his exacting eye to the underbelly of American capitalism and its far-reaching influence on our society. Exposing three American mainstays—pot, porn, and illegal immigrants—Schlosser shows how the black market has burgeoned over the past several decades. He also draws compelling parallels between underground and overground: how tycoons and gangsters rise and fall, how new technology shapes a market, how government intervention can reinvigorate black markets as well as mainstream ones, and how big business learns—and profits—from the underground. "Captivating . . . Compelling tales of crime and punishment as well as an illuminating glimpse at the inner workings of the underground economy. The book revolves around two figures: Mark Young of Indiana, who was sentenced to life in prison without parole for his relatively minor role in a marijuana deal; and Reuben Sturman, an enigmatic Ohio man who built and controlled a formidable pornography distribution empire before finally being convicted of tax evasion. . . . Schlosser unravels an American society that has 'become alienated and at odds with itself.' Like Fast Food Nation, this is an eye-opening book, offering the same high level of reporting and research." —Publishers Weekly

"He either enchants or antagonizes everyone he meets. But even his enemies agree there are three things Ray Kroc does damned well: sell hamburgers, make money, and tell stories." --from Grinding It Out Few entrepreneurs can claim to have radically changed the way we live, and Ray Kroc is one of them. His revolutions in food-service automation, franchising, shared national training, and advertising have earned him a place beside the men and women who have founded not only businesses, but entire empires. But even more interesting than Ray Kroc the business man is Ray Kroc the man. Not your typical self-made tycoon, Kroc was fifty-two years old when he opened his first franchise. In Grinding It Out, you'll meet the man behind McDonald's, one of the largest fast-food corporations in the world with over 32,000 stores around the globe. Irrepressible enthusiast, intuitive people person, and born storyteller, Kroc will fascinate and inspire you on every page.

"This is a book to savor, especially if you're a fast-food fan."—Bookpage "This fun, argumentative, and frequently surprising pop history of American fast food will thrill and educate food lovers of all speeds." —Publishers Weekly Most any honest person can own up to harboring at least one fast-food guilty pleasure. In Drive-Thru Dreams, Adam Chandler explores the inseparable link between fast food and American life for the past century. The dark underbelly of the industry's largest players has long been scrutinized and gutted, characterized as impersonal, greedy, corporate, and worse. But, in unexpected ways, fast food is also deeply personal and emblematic of a larger than life image of America. With wit and nuance, Chandler reveals the complexities of this industry through heartfelt anecdotes and fascinating trivia as well as interviews with fans, executives, and workers. He traces the industry from its roots in Wichita, where White Castle became the first fast food chain in 1921 and successfully branded the hamburger as the official all-American meal, to a teenager's 2017 plea for a year's supply of Wendy's chicken nuggets, which united the internet to generate the most viral tweet of all time. Drive-Thru Dreams by Adam Chandler tells an intimate and contemporary story of America—its humble beginning, its innovations and failures, its international charisma, and its regional identities—through its beloved roadside fare.

Kids love fast food. And the fast food industry definitely loves kids. It couldn't survive without them. Did you know that the biggest toy company in the world is McDonald's? It's true. In fact, one out of every three toys given to a child in the United States each year is from a fast food restaurant. Not only has fast food reached into the toy industry, it's moving into our schools. One out of every five public schools in the United States now serves brand name fast food. But do kids know what they're eating? Where do fast food hamburgers come from? And what makes those fries taste so good? When Eric Schlosser's best-selling book, Fast Food Nation, was published for adults in 2001, many called for his groundbreaking insight to be shared with young people. Now Schlosser, along with co-writer Charles Wilson, has investigated the subject further, uncovering new facts children need to know. In Chew On This, they share with kids the fascinating and sometimes frightening truth about what lurks between those sesame seed buns, what a chicken 'nugget' really is, and how the fast food industry has been feeding off children for generations.

A searing novel of social realism, Upton Sinclair's The Jungle follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a hellish system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

"An in-depth, well-researched, and thoughtful exploration of the 'fat boom' in America." —TheBoston Globe Low carb, high protein, raw foods . . . despite our seemingly endless obsession with fad diets, the startling truth is that six out of ten Americans are overweight or obese. In Fat Land, award-winning nutrition and health journalist Greg Critser examines the facts and societal factors behind the sensational headlines, taking on everything from suppersize to Super Mario, high-fructose corn syrup to the high costs of physical education. With a sharp eye and even sharper tongue, Critser examines why pediatricians are now treating conditions rarely seen in children before: why type 2 diabetes is on the rise; the personal struggles of those with weight problems—especially among the poor—and how agrbusiness has altered our waistlines. Praised by the New York Times as "absorbing" and by Newsday as "riveting," this disarmingly funny, yet truly alarming, exposé stands as an important examination of one of the most pressing medical and social issues in the United States. "One scary book and a good companion to Eric Schlosser's Fast Food Nation." —Seattle Post-Intelligencer

As an adult book, Sam Quinones's Dreamland took the world by storm, winning the NBCC Award for General Nonfiction and hitting at least a dozen Best Book of the Year lists. Now, adapted for the first time for a young adult audience, this compelling reporting explains the roots of the current opiate crisis. In 1929, in the blue-collar city of Portsmouth, Ohio, a company built a swimming pool the size of a football field; named Dreamland, it became the vital center of the community. Now, addiction has devastated Portsmouth, as it has hundreds of small rural towns and suburbs across America. How that happened is the riveting story of Dreamland. Quinones explains how the rise of the prescription drug OxyContin, a miraculous and extremely addictive painkiller pushed by pharmaceutical companies, paralleled the massive influx of black tar heroin—cheap, potent, and originating from one small county on Mexico's west coast, independent of any drug cartel. Introducing a memorable cast of characters—pharmaceutical pioneers, young Mexican entrepreneurs, narcotics investigators, survivors, teens, and parents—Dreamland is a revelatory account of the massive threat facing America and its heartland.

A groundbreaking investigative work by a critically acclaimed sociologist on the corporate takeover of local news and what it means for all Americans For the residents of Minot, North Dakota, Clear Channel Communications is synonymous with disaster. Early in the morning of January 18, 2002, a train derailment sent a cloud of poisonous gas drifting toward the small town. Minot's fire and rescue departments attempted to reach Clear Channel, which owned and operated all six local commercial radio stations, to warn residents of the approaching threat. But in the age of canned programming and virtual DJs, there was no one in the conglomerate's studio to take the call. The people of Minot were taken unawares. The result: one death and more than a thousand injuries. Opening with the story of the Minot tragedy, Eric Klinenberg's Fighting for Air takes us into the world of preprogrammed radio shows, empty television news stations, and copycat newspapers to show how corporate ownership and control of local media has remade American political and cultural life. Klinenberg argues that the demise of truly local media stems from the federal government's malign neglect, as the agencies charged with ensuring diversity and open competition have ceded control to the very conglomerates that consistently undermine these values and goals. Such "big media" may not be here to stay, however. Eric Klinenberg's Fighting for Air delivers a call to action, revealing a rising generation of new media activists and citizen journalists—a coalition of liberals and conservatives—who are demanding and even creating the local coverage they need and deserve.
