The goal of this project was to recreate the game of Tic-Tac-Toe using the Altera DE2-115 Development board and displaying the game through VGA. This first involved understanding how the VGA connector is used to communicate from the Altera board to a monitor. Once we are able to

File Type PDF Final Project Tic Tac Toe Geocities

successfully display an image on the monitor using the VGA driver (which was adapted from the computer graphics project), the next step was to create the Tic-Tac-Toe board and logic of placing an X or O. Players are ...

Introduction. As a final project for ECE
249, we will develop a multi-player tic-
tac-toe game with the knowledge we

File Type PDF Final Project Tic Tac Toe Geocities

learned from the previous laboratory exercises. For our project, we will need a user interface, a game controller, a display for game and the winning status of the game.
