This is a great guide to IFRS and IAS, which I highly recommend to anyone in controlling or reporting functions at a financial institution. Pooja has poured through these very lengthy and dry financial instruments standards and presented a very comprehensible summary of major accounting topics, including netting, classification, consolidation, derecognition, hedging effectiveness, and disclosures.

requests for guidance on the application of Section 3856, Financial Instruments, in the CPA Canada Handbook - Accounting, Part II, Accounting Standards for Private Enterprises.

Over the last couple of years, companies around the world switched from national accounting standards to International Financial Reporting Standards (IFRS). India too would adopt IFRS directly or align the national standards with IFRS from 2011. While this has been welcomed by investors and other stakeholders,

Practitioners continue to grapple with interpretations and practices that are emerging in areas where the standards are not explicit. Financial Instruments Standards guides the reader through rules and supplements the application guidance with interpretation and analyses. It deals with all aspects of hedge accounting, as well as embedded derivatives and derecognition of financial instruments. It also includes numerous worked out examples pertaining to complex calculations and disclosures.

GAAP) in the United States about financial instruments. A financial instrument is cash, an ownership interest in another entity (such as common stock), or a contract that conveys an obligation and a corresponding right to require delivery of (or exchange) a financial instrument(s). The right may be contingent (such as an option) or unconditional (such as a loan). A financial instrument is ultimately convertible to cash (or stock) and does not involve the delivery of goods or services.

under Ind AS is generally complex. In India, we do not have much of a history of a comprehensive and robust accounting framework for financial instruments. Historically, accounting for financial instruments is primarily based on form rather than the contractual terms of instruments. Focus on accounting for financial instruments started only since 2007. Owing to global financial crisis which raised issues regarding accounting treatment of financial instruments, various accounting standards setting bodies examined the robustness of accounting for financial instruments.

Further, Ind AS transition resulted in high-quality, principles-based, globally comparable financial reporting of large Indian companies. Accounting for financial instruments under Ind AS is quite robust and comprehensive. Towards this end, this book attempts to provide insights and in-depth analysis on interpretative issues and complex principles in the Ind ASs dealing with financial instruments.
