On a Ford 172 or Ford 192 industrial engine the distributor drive rod performs a very important function. This Ford 172 distributor drive shaft is a hex sided shaft made of hardened steel, 3.93 " long with chamfered ends. This drive rod connects the distributor with the oil pump. The Ford 172 or 192 engine ' s cam gear drives the distributor which then through this short shaft drives the oil pump.
