I really like Golfshot Pro because it provides a long term glimpse of my game. I see where I'm wasting strokes, I develop a macro view of my game that other apps just can't provide, all while giving me important yardage info. Thanks! - Michael S., Golfshot member since 2012

Golfshot was a great app, well worth the price, and I had used it for years. Now I have questions: (1) why did it disappear, and how hard will it be to get it back. My phone has said “download pending” for three hours now. Will Golfshot get sufficient server capacity in time to salvage this upgrade rollout demand?
