Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELsâ€who account for more than 9 percent of enrollment in grades K-12 in U.S. schoolsâ€are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

Leadership Experience for Academic Directions (LEAD) is a program that was developed as a service learning program for teacher candidates in preparation for the teaching career. As youth populations continue to diversify and as the issues impacting youth continue to surface, it is the responsibility of educators, administrators, and the governments to provide all the opportunities for youth to succeed academically, socially, and personally. Teachers especially are instrumental in making this happen; therefore, it is imperative that teachers come into the profession with the cognitive and non-cognitive skills to motivate youth to succeed. The Handbook of Research on Leadership Experience for Academic Direction (LEAD) Programs for Student Success s a critical scholarly book that explores the many facets of the teaching profession as they relate to working with at-risk youth and helping them reach their full potential. This book provides the groundwork for programs that will succeed at the K-12 education level and at the teacher education level. Featuring a range of topics such as human capital, mental health, and social learning theory, this book is essential for academicians, teaching professionals, administrators, professional development educators, policymakers, researchers, and students.
