Psych Unit 1 Intro

A phenomenon of the pre-industrial age, the Sans-Culottes--master craftsmen, shopkeepers, small merchants, domestic servants--were as hostile to the ideas of capitalist bourgeoisie as they were to those of the ancien regime which was overthrown in the first years of the Revolution. Here is a detailed portrait of who these people were and a sympathetic account of their moment in history.

This new edition of the most authoritative, comprehensive history of the French Revolution of 1789 draws on a generation of extensive research and scholarly debate to reappraise the most famous of all revolutions. Updates for this second edition include a generous chronology of events, plus an extended bibliographical essay providing an examination of the historiography of the Revolution. Opening with the accession of Louis XVI in 1774, the book traces the history of France through revolution, terror, and counter-revolution, to the triumph of Napoleon in 1802, and analyses the impact of events both in France itself and the rest of Europe. William Doyle shows how a movement which began with optimism and general enthusiasm soon became a tragedy, not only for the ruling orders, but for the millions of ordinary people all over Europe whose lives were disrupted by religious upheaval, and civil and international war. It was they who paid the price for the destruction of the old political order and the struggle to establish a new one, based on the ideals of liberty and revolution, in the face of widespread indifference and hostility.

When renowned French sociologist GUSTAVE LE BON (1841-1931), who pioneered the field of mass psychology, took a fresh, scientific look at the subject of revolution-and in particular, the French Revolution-he stripped away legend and illusion to find the core reality. In this profound and insightful work, a replica of the 1913 edition, he explores the mob mentality of revolutionaries-religious, scientific, and political-examines the motives of their leaders, and discusses how new forms of democratic belief and practice arise from popular movements. Students of history and the human mind alike will find it a fascinating read. ALSO FROM COSIMO: Le Bon's The Crowd: A Study of the Popular Mind

Michel Foucault, Jean-Paul Sartre, Julia Kristeva, Phillippe Sollers, and Jean-Luc Godard. During the 1960s, a who's who of French thinkers, writers, and artists, spurred by China's Cultural Revolution, were seized with a fascination for Maoism. Combining a merciless exposé of left-wing political folly and cross-cultural misunderstanding with a spirited defense of the 1960s, *The Wind from the East* tells the colorful story of this legendary period in France. Richard Wolin shows how French students and intellectuals, inspired by their perceptions of the Cultural Revolution, and motivated by utopian hopes, incited grassroots social movements and reinvigorated French civic and cultural life. Wolin's riveting narrative reveals that Maoism's allure among France's best and brightest actually had little to do with a real understanding of Chinese politics. Instead, it paradoxically served as a vehicle for an emancipatory transformation of French society. Recounting the cultural and political odyssey of French students and intellectuals in the 1960s, *The Wind from the East* illustrates how the Maoist phenomenon unexpectedly sparked a democratic political sea change in France.

A comprehensive guide to Giordano's *ANDREA CHENIER*, featuring Principal Characters in the opera, Brief Story Synopsis, Story Narrative with Music Highlight Examples, and an insightful and in depth Commentary and Analysis by Burton D. Fisher, noted opera author and lecturer."
