~~Clinical competency guidelines for pulmonary ...~~

While the guidelines do not recommend pulmonary rehab during the hospital stay itself, they do recommend beginning such a program within three weeks of discharge. They also recommend a home-based management approach for patients who present to the hospital or emergency department with a COPD exacerbation.

~~New Guidelines Tout Pulmonary Rehab, Home Care, for COPD~~

Pulmonary rehabilitation programs may need to be adjusted for patients who have different diseases. Pulmonary rehabilitation programs are based primarily on evidence from research on COPD. NHLBI-supported research seeks to understand how other disorders affect breathing and how programs can be tailored to benefit patients who have those other disorders.
