Gynecological Endocrinology and Reproductive Medicine ...

Gynaecology or gynecology (see spelling differences) is the medical practice dealing with the health of the female reproductive system (vagina, uterus, and ovaries). Outside medicine, the term means "the science of women". Its counterpart is andrology, which deals with medical issues specific to the male reproductive system.. Almost all modern gynaecologists are also obstetricians (see ...

Gynaecology - Wikipedia

Reproductive Endocrinology General endocrinology is a branch of internal medicine, dealing with the function of the body's glands and the hormones they generate. However, reproductive...
