This is utterly astonishing! It's no quaint film about the integrity of one healthy indigenous tribe. These fellow humans are PLAINLY telling us how to avoid extinction!!! For me this was a serious wake-up call. Imagine if people throughout the world had the same clear intention as the Kogi !!! I'd like to see this DVD in every school in the world.

Synopsis. Spectacular gold pieces made by a forgotten civilization, the Taironas, appeared in large numbers in Colombia in the 1970s. 16th-century chronicles spoke of their ceremonial cities and eventually tomb robbers led the way to the Lost City of the Taironas in dense mountain jungle. Alan Ereira went there and made contact with their communities still functioning high on an isolated mountain.

The Kogi, members of an isolated tribe in the mountains of Colombia, speak out about the consequences of modern living in a keen portrait of a culture that has survived unchanged for more than a thousand years. 10,000 first printing.

The Kogi people, the "Elder Brothers" of humanity, live hidden on a mountain they call "The Heart of the World." This is the true story of how they revealed themselves to warn us of the impending calamity we are creating.

Identified as the first American edition of a 1990 book

published in the UK by J. Cape Ltd. as The heart of the world, this is an account of the making of a BBC television film on the Kogi, an isolated people of Colombia. The author is a historian and film-maker who writes with clarity and empathy. Annotation copyrighted by Book News, Inc., Portland, OR

This book is about how water becomes people – or, put another way, how people and water flow together and shape each other. While the focus of the book is on the relationships held between water and people, it also has a broader message about human relationships with the environment generally – a message that illustrates not only that people are

Get Free Heart World Alan Ereira

existentially entangled with the material world, but that the materials of the world shape, determine and enable humans to be 'humans' in the ways that they are. Offering a selection of anthropological examples from Kenya, Wales and Spain to illustrate how water's materiality coproductively generates the way people are able to engage with water, this book uses cross-disciplinary perspectives to provide and promote a new analytic – one that encourages ethical, holistic and sustainable relationships with the world around us. This approach challenges representations that ignore, sidestep or are blind to the fleshy materiality of being human, and aims to encourage a re-imagining of the world that acknowledges humanity

as intrinsically active-with and part of the fabric of the collection of materials we call planet Earth.

Was medieval England full of knights on horseback rescuing fainting damsels in distress? Were the Middle Ages mired in superstition and ignorance? Why does nobody ever mention King Louis the First and Last? And, of course, those key questions: which monks were forbidden the delights of donning underpants... and did outlaws never wear trousers? Terry Jones and Alan Ereira are your guides to this most misrepresented and misunderstood period, and they point you to things that will surprise and provoke. Did you know, for example, that medieval people didn't

think the world was flat? That was a total fabrication by an American journalist in the 19th century. Did you know that they didn't burn witches in the Middle Ages? That was a refinement of the so-called Renaissance. In fact, medieval kings weren't necessarily merciless tyrants, and peasants entertained at home using French pottery and fine wine. Terry Jones' *Medieval Lives* reveals Medieval Britain as you have never seen it before - a vibrant society teeming with individuality, intrigue and innovation.

Terry Jones' *Barbarians* takes a completely fresh approach to Roman history. Not only does it offer us

the chance to see the Romans from a non-Roman perspective, it also reveals that most of those written off by the Romans as uncivilized, savage and barbaric were in fact organized, motivated and intelligent groups of people, with no intentions of overthrowing Rome and plundering its Empire. This original and fascinating study does away with the propaganda and opens our eyes to who really established the civilized world. Delving deep into history, Terry Jones and Alan Ereira uncover the impressive cultural and technological achievements of the Celts, Goths, Persians and Vandals. In this paperback edition, Terry and Alan travel through 700 years of history on three continents, bringing wit, irreverence, passion and

scholarship to transform our view of the legacy of the Roman Empire and the creation of the modern world.

The Boston PI tangles with the Colombian underworld in this "astonishing installment in . . . one of the best private eye series ever" (Harlan Coben). Six-foot-tall, redheaded ex-cop and Boston-based private eye Carlotta Carlyle is "the genuine article: a straightforward, funny, thoroughly American mystery heroine" (New York Post). Carlotta is frantic. It appears that Paolina, a street-smart teenage girl she's always thought of as a little sister, has run away. After dead-end investigations throughout Boston, Carlotta fears the worst. Especially when she connects the

disappearance to Paolina's biological father, Roldán Gonzales, a ruthless Colombian drug lord. To find Paolina, first Carlotta has to find Gonzales—but he's vanished too. The official report is that he's dead. Warned against going to the police in Bogotá, Carlotta must trust her instincts as she follows in Paolina's footsteps, which lead to the mountains of Colombia—Sierra Nevada de Santa Marta, the heart of the world. But will her rescue end up being a trap? The answer will "shock and surprise the reader" (Library Journal). "This is her best." —Michael Connelly Heart of the World is the 11th book in the Carlotta Carlyle Mysteries, but you may enjoy reading the series in any order.
