Illustrated historical and geographical atlas of the locales and dispersion of the world's religions, ancient and modern.

Provides a history of world religions, arranged geographically, from the beginning of time to the twenty-first century; and explains how religious faiths evolved, spread, and conflicted with each other.

Depicts the main characteristics of religion in the United States, including Native American beliefs, the introduction and spread of Christianity, and the growth of other new and more recently imported faiths.

In two editions over 40 years, Edwin Gaustad's Atlas of American Religion has been an essential guide to the American religious experience. Now the New Historical Atlas of Religion in America takes the story into the new millennium. Expanded, reorganized, and now in full color, the new edition of this classic reference work is an arresting visual and narrative portrait of the growth, development, and diversity of America's communities of faith across nearly 400 years. Here is a vastly more complex American religious life--from the decline of mainstream Protestantism to the emergence of evangelical churches and the growing influence of Muslim, Hindu, Buddhist, and other faiths. Parts One and Two are a history--in maps and text--of American religions. Part Three focuses in-depth on Lutherans, Mormons, and Roman Catholics. Part Four examines the political, cultural, and social aspects of religion in American public life. Lavishly illustrated with full-color maps, charts, and diagrams, the new Atlas is an essential resource for all readers--students, teachers, scholars, and everyone seeking to understand the remarkable religious history of the United States.

First Published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

Maps and text present a guide to the historical development and current state of the world's religions.

The first cartographic reference book on one of today's most important religious movements Historical Atlas of Hasidism is the very first cartographic reference book on one of the modern era's most vibrant and important mystical movements. Featuring sixty-one large-format maps and a wealth of illustrations, charts, and tables, this one-of-a-kind atlas charts Hasidism's emergence and expansion; its dynasties, courts, and prayer houses; its spread to the New World; the crisis of the two world wars and the Holocaust; and Hasidism's remarkable postwar rebirth. Historical Atlas of Hasidism demonstrates how geography has influenced not only the social organization of Hasidism but also its spiritual life, types of religious leadership, and cultural articulation. It focuses not only on Hasidic leaders but also on their thousands of followers living far from Hasidic centers. It examines Hasidism in its historical entirety, from its beginnings in the eighteenth century until today, and draws on extensive GIS-processed databases of historical and contemporary records to present the most complete picture yet of this thriving and diverse religious movement. Historical Atlas of Hasidism is visually stunning and easy to use, a magnificent resource for anyone seeking to understand Hasidism's spatial and spiritual dimensions, or indeed anybody interested in geographies of religious movements past and present. Provides the first cartographic interpretation of Hasidism Features sixty-one maps and numerous illustrations Covers Hasidism in its historical entirety, from its eighteenth-century origins to today Charts Hasidism's emergence and expansion, courts and prayer houses, modern resurgence, and much more Offers the first in-depth analysis of Hasidism's egalitarian--not elitist--dimensions Draws on extensive GIS-processed databases of historical and contemporary records

Understanding the where of the world's religious traditions is an important component of understanding the what. Now, as part of a brand-new series of atlas resources, Fortress Press is pleased to offer an affordable, compact yet comprehensive atlas of world religions.

Atlas of World Religions is newly built from the ground up. Featuring more than fifty new maps, graphics, and timelines, the atlas is an immensely helpful companion to any study of world religions. Concise, helpful text written by acknowledged authorities guides the experience and interprets the visuals. Consciously written for students at any level, the volume is perfect for independent students, as well as those in structured courses. The atlas provides ample and equal coverage of all of the world's major religious traditions, as well as generous coverage of regional or indigenous traditions in specific regions of the world. The atlas is grounded in a helpful section on the earliest humans and the spread of the first organized religions, and it culminates in up-to-date maps of religion in the world
