When the printer runs out of paper, the print queue correctly shows out of paper. When paper is loaded, the out of paper indicator should go off. However, for some reason, this out of paper indicator doesn’t go off even when paper is loaded. The only way that I’ve found to clear it up is to reboot the laptop.

Disconnect the power cable from the printer while the printer is still ON. Disconnect any other cables if connected the printer. Press and hold the power button for 15 seconds. The printer should be directly connected to the wall outlet and not to a surge protector.

How To Fix Printer Ink Cartridge Issues – Castle Ink

(1) Remove the ink cartridge from the printer. (2) Power OFF the printer for 2 minutes. (3) Power ON the printer and re-install the ink cartridge (s). (4) Run the head cleaning cycle.

Solved: HP Envy 5546 - printing problems - says paper tray is empty

Thanks for taking an interest in the HP Support Forums! After reading your post I see that you are getting an Out of Paper error message on your HP Envy 5546 printer. Here are some steps you can try:

1. Make sure the paper is properly loaded in the paper tray. Check the tray for any loose pieces of paper or debris that may be preventing the printer from picking up the paper.
2. Check the paper settings in the print driver. Make sure the paper size and type are selected correctly.
3. Clean the paper feed and pick rollers. Use a soft, lint-free cloth to gently clean the rollers.

HP Photosmart 6520 Issues with Black Ink Not Printing - HP Support

If you have an HP DeskJet 3700 series printer, calibrate the scanner after resetting the printer. Load the original photos onto the scanner and then select the correct source and size settings in the print driver.

If it still doesn’t work, check out the troubleshooting section in the printer’s User Manual, and if need be, contact tech support.

2. My printer claims it's running out of ink, but I still can print.

Welcome to the Official HP Troubleshooting page featuring support for HP laptops, printers, windows products and more. Start by searching for your HP product.

Launch the Printer Software from the Start screen (icon for the printer model name) or from the tile named for your printer. If your printer is not listed, turn it on and then click the link to search for more information.

If a screen displays prompting to turn on printer updates, click Yes and continue.

Top 10 HP printing problems and how to fix them - TechRepublic

When troubleshooting a 79 error, first open the Printer folder from the Start menu on the Print server to make sure there are no jobs pending. A 79 error can also indicate a failure of a printer or a network connection.

Find HP printer support and customer service options including driver downloads, diagnostic tools, warranty check and troubleshooting info.

Troubleshooting Print Quality Problems | HP Inkjet Printers | HP

Get a flashlight. Turn off the printer. Wait until the printer is idle and silent, and then disconnect the power cord and remove the paper stack from the input tray. Depending on your printer model, use the flashlight to find the paper pick roller.

Once HP Print and Scan Doctor is open, click Start, and then choose your printer. If your printer is not listed, turn it on and then click the link to search for more information.

If a screen displays prompting to turn on printer updates, click Yes and continue.
