Husqvarna Chainsaw Parts by Model Guide | Power Mower Sales

Before using a new saw • Read the instructions carefully. • Check cutting equipment is correctly fitted and adjusted. See page 25. • Refuel and start the saw. Check the carburetor settings. See pages 26-29. • Do not use the saw until sufficient chain oil has reached the chain, see page 14. IMPORTANT! If the carburetor mixture is too lean it greatly increases the risk of engine failure.
