This book focuses on the role of modeling in the design of alloys and intermetallic compounds. It includes an introduction to the most important and most used modeling techniques, such as CALPHAD and ab-initio methods, as well as a section devoted to the latest developments in applications of alloys. The book emphasizes the correlation between modeling and technological developments while discussing topics such as wettability of Ultra High Temperature Ceramics by metals, active brazing of diamonds to metals in cutting tools, surface issues in medicine, novel Fe-based superconductors, metallic glasses, high entropy alloys, and thermoelectric materials.

This book is an unabashed celebration of one of Great Britain's greatest engineering names and the remarkable machines that can be seen in action all over the world. From the first trailer, produced from post-war scrap metal in 1945 to the latest award-winning electric mini-digger - the story of JCB is told through a remarkable collection of images from the company's own archives.

Returning a hero from the battlefields of World War II, Walter Selby settles into a charmed domestic life in Memphis. But in a few brief

moments, Walter sees his life and his world fracture and split apart, driving him to commit a terrible crime. Many years later, Frank Cartwright ponders his next move. His film career has left him wealthy but incomplete. When a director approaches him with a script that has a riddle for a plot Frank is intrigued by its resonance. In his search for an answer to the riddle, Frank embarks on a journey that will lead him into a past he doesn't remember. Jim Lewis, acclaimed author of *Why the Tree Loves the Ax*, returns with a novel stunning in its originality and scope. And as he tells the stories of two men and the conflicts that shape them, he delivers a powerful portrait of America and the treacherous currents that run through it.

Table manners While they offer useful information on the practical—from table settings and introductions to thank-you notes and condolences—the Posts make it clear why good etiquette matters. Etiquette is a sensitive awareness of the feelings of others, they remind us. Ultimately, being considerate, respectful, and honest is what's really important in building positive relationships. "Please" and "thank you" do go a long way, and whether it's a handshake, a hug, or a friend request, it's the underlying sincerity and good intentions behind any action that matter most.

As Scottish Correspondent for Earthmovers Magazine, David Wylie has enjoyed privileged access to the mines, quarries, road projects and forestry sites across Scotland. On his visits he has seen some of the biggest and arguably the best, earthmoving machinery in the world, in action. Earthmovers in Scotland brings together 32 of David's reports from these visits to tell the story of the highly skilled, experienced owners, drivers and managers that work with earthmoving equipment and explains why they select, maintain and operate these machines. The book features some of the largest earthmovers in the UK, such as Caterpillar's D11R bulldozer, Liebherr's massive 320 tonne R9350s and the mighty 520 tonne Q&K RH200 at Banks Mining Shotton surface mine in Northumberland, a short hop over the Scottish border. It also takes a

look at a 1.5 tonne mini digger, special trailers that can lift and transport 1800 tonne bridges into position, and covers Demag's H485 record breaking mining shovel amongst others. Taking pride of place in the book are over 400 stunning photographs, many of which have not been seen before and many of which feature machines that were the first of their kind. Each high quality photo has been carefully composed to capture each machine in all its power and brilliance with the spectacular Scottish scenery as a backdrop and 80 of the most important and detailed images are presented as double pages to help you get close to the action. This beautiful book sets out to provide its owner with a comprehensive look at Scottish earthmovers scene, and will be of interest to enthusiasts, owners, drivers and site managers worldwide.

At the outset of the Second World War on September 1, 1939, young Aussie diggers are rushed to assist Britain in its hour of need to the nearest European war zone in the Middle East and North Africa. My Uncle Arthur, young Arty is one of these a sapper with 6 years militia training as an army engineer. The ANZAC forces sweep through Libya, from Egypt to Benghazi, defeating superior numbers of heavily armed Italians the first Allied land victory of the war. Ill-equipped and lacking promised supplies, the ANZACs are then inappropriately redirected from North Africa to Greece to help the Greeks face the overwhelming German advance. Retreating to Crete, Arty is captured in the Battle of Crete and becomes a POW. I am motivated to visit the conflict zones of Gallipoli and to follow my uncles wartime exploits from the time of his capture in June 1941 until his third and final escape from a German work camp in Czechoslovakia in 1945. Modern day travel makes it possible to visit not only the more recent wartime scenes of Central Europe, but also to visit the sites of classical civilizations to discover the history, art and cultures of the Mediterranean. Accompanying me on my journey is Avril who was born in England and has vivid wartime memories of the conflict from her childhood.
