General Duty In-Line Mixers.
Silverson offers a range of In-Line
mixers suitable for hazardous and
aggressive chemical service.
These robust mixers require
minimal maintenance and provide
some of the highest rotor tip
speeds and shear rates in the
industry. Self-pumping capacities
from 20 to 20,000 litres per hour.

supremely efficient and rapid in operation and are capable of reducing mixing times by up to 90%. The action of any Silverson In-Line mixer can be modified with the use of rapidly interchangeable workheads. This enables any machine to mix, emulsify, homogenise, solubilise, suspend, disperse and disintegrate solids.
