Island Tribes of Andaman and Nicobar

Ten members of a dwindling tribe who live on a secluded island in the Andaman Islands archipelago have tested positive for coronavirus, as the pandemic continues to affect even the most remote areas.

US missionary killed by endangered Andaman island tribe

Rare footage captures Sentinelese tribe of Indian Ocean

American 'killed in India by endangered Andamans tribe

The two endangered aboriginal Andaman tribes - the Jarawa and the Sentinelese - are hunter-gatherers, and contact with the outside world would put them at risk of contracting disease.
