Isuzu Diesel

The existing alternator charging circuit, consisting of the orange & red 10GA wires, runs as far as 25+ feet on some boats before it gets to the battery banks. On most of these panels the entire current of the alternator runs through upwards of 25 of 10GA wire and two ridiculously pathetic trailer type connectors,

Hi, my first post to this forum as a narrowboat owner for just a few months! I need the two alternator belts on my Isuzu 42 hp diesel engine. The belts cant really be seen as they are at the front of the engine under the stern decking so it will have to be done more or less by feel. Can anyone te...
