Trouble Shooting the Kawasaki 17 HP Engine Instructions: Follow these steps until the problem is resolved Engine Will Not Start. (Battery is good and engine is cranking) 1. Do not pull the throttle bail handle back while starting. This can cause the engine hard to start. The reason for this, is the vacuum from the engine will not release the vacuum lock off in side the regulator. 2. Check to ...

single cylinder, air-cooled engine. The carburetor delivers the fuel from the gas tank and the air that is sucked through the air filter to the engine cylinder for combustion. It is a delicate mixture, and if the mixture becomes out of adjustment it can cause the engine to surge and perform poorly. When this occurs, you must adjust the throttle cable before ...
