1903. Thomas Nelson Page, author of short stories, novels, essays, and poetry, is best known for his role as literary spokesman for the glories of the Old South. Gordon Keith begins: Gordon Keith was the son of a gentleman. And this fact, like the cat the honest miller left to his youngest son, was his only patrimony. As in that case also, it stood to the possessor in the place of a good many other things. It helped him over many rough places. He carried it with him as a devoted Romanist wears a sacred scapular next to the heart. See other titles by this author available from Kessinger Publishing.

Top-notch advice on adopting DSL DSL is exploding, with fifteen million fast Internet connections in 2001 and probably forty million more by 2003. The editors of DSL Prime, the weekly "industry bible," brief you on exactly what you need to know to put the technology to use. The book moves rapidly from the basics of the equipment through security, applications, and network management. With the authority of the industry's key periodical, Bourne and Burstein provide candid evaluations of the providers and manufacturers and offer technical managers a no-nonsense guide to make sound strategic decisions on DSL, reduce costs, and ensure a system that will run reliably and smoothly. Wiley Tech Briefs Focused on the needs of the corporate IT and business manager, the Tech Briefs series provides in-depth information on a new or emerging technology, solutions, and vendor offerings available in the marketplace. With their accessible approach, these books will help you get quickly up-to-speed on a topic so that you can effectively compete, grow, and better serve your customers.

This book examines the leadership family model as a key coaching and mentoring tool for the multiplication of healthy, strong families in the twenty-first century. This book introduces the leadership family model as a four-step process: individual male and female leadership, leadership couples, leadership families, mentor-coach other leadership families. In addition, this book highlights the third and fourth steps of the leadership family model leadership families, mentoring-coaching leadership families by defining, explaining, and suggesting ways to coach and mentor families locally and globally. Primary and secondary research was used in this book as well as life experience. The results indicate there is evidence leadership families do exist, and the leadership family model should be considered as a viable coaching and mentoring tool for multiplying healthy, strong families in the twenty-first century. In addition, the results suggest families need a roadmap to health, strength, and growth. The leadership family model can provide that roadmap.
