Made in Spain: Studies in Popular Music will serve as a comprehensive and rigorous introduction to the history, sociology and musicology of 20th century Spanish popular music. The volume will consist of 16 essays by leading scholars of Spanish music and will cover the major figures, styles and social contexts of pop music in Spain. Although all the contributors are Spanish, the essays will be expressly written for an international English-speaking audience. No knowledge of Spanish music or culture will be assumed. Each section will feature a brief introduction by the volume editors, while each essay will provide adequate context so readers understand why the figure or genre under discussion is of lasting significance to Spanish popular music. The book first presents a general description of the history and background of popular music, followed by essays organized into thematic sections.

This twelfth volume of the Annual Review celebrates the fiftieth anniversary of the Institute of Jazz Studies and features articles covering subjects which have not been engaged in past issues of the Review. Gil Evans, Django Reinhardt, Lucky Thompson, and Paul Bley each receive much deserved critical attention in this issue. This issue also includes a photo gallery illustrating some of the prominent locations and people of the Institute's history, both in New York and at its present home at Rutgers in Newark, New Jersey.

One of the world's renowned centres of culture, Barcelona is also one of the capitals of modernist art given its associations with the talents of Dalí, Picasso, and Gaudí. Jazz Age Barcelona focuses the lenses of cultural studies and urban studies on the avant-garde character of the city during the cosmopolitan Jazz Age, delving into the cultural forces that flourished in Europe between the late 1910s and early 1930s. Studying literary journalism, photography, and the city of Barcelona itself, Robert Davidson argues that the explosion of jazz culture and the avant-garde was predominantly fostered by journalists and their positive reception of innovative new art forms and radical politics. Using periodicals and recently rediscovered archival material, Davidson considers the relationship between the political pressures of a brutal class war, the grasp of a repressive dictatorship, and the engagement of the city's young intellectuals with Barcelona's culture and environment. Also analysing the 1929 International Exhibition and the down-and-out Raval District - which housed many of the Age's clubs and bars - Jazz Age Barcelona is an insightful portrait of one of the twentieth century's most culturally rich times and places.

Founded in 1965 and still active today, the Association for the Advancement of Creative Musicians (AACM) is an American institution with an international reputation. George E. Lewis, who joined the collective as a teenager in 1971, establishes the full importance and vitality of the AACM with this communal history, written with a symphonic sweep that draws on a cross-generational chorus of voices and a rich collection of rare images. Moving from Chicago to New York to Paris, and from founding member Steve McCall ' s kitchen table to Carnegie Hall, *A Power Stronger Than Itself* uncovers a vibrant, multicultural universe and brings to light a major piece of the history of avant-garde music and art. Review: "This encyclopedia offers an authoritative and comprehensive survey of the important writers and works that form the literature about the Holocaust and its consequences. The collection is alphabetically arranged and consists of high-quality biocritical essays on 309 writers who are first-, second-, and third-generation survivors or important thinkers and spokespersons on the Holocaust. An essential literary reference work, this publication is an important addition to the genre and a solid value for public and academic libraries..."-"The Top 20 Reference Titles of the Year," American Libraries, May 2004.

Why can a "white" woman give birth to a "black" baby, while a "black" woman can never give birth to a "white" baby in the United States? What makes racial "passing" so different from social mobility? Why are interracial and incestuous relations often confused or conflated in literature, making "miscegenation" appear as if it were incest? Werner Sollors examines these questions and others in "Neither Black nor White yet Both," a fully researched investigation of literary works that, in the past, have been read more for a black-white contrast of "either-or" than for an interracial realm of "neither, nor, both, and in-between." From the origins of the term "race" to the cultural sources of the "Tragic Mulatto," and from the calculus of color to the retellings of various plots, Sollors examines what we know about race, analyzing recurrent motifs in scientific and legal works as well as in fiction, drama, and poetry.
