Praise for Results That Last "Quint Studer is a superb communicator with a deep belief in the power of relationships. His informal tone, sense of humor, and real-world stories bring his business principles to life. Results That Last has a vital, optimistic quality that will keep readers re-reading long after other leadership books have been relegated to a dark corner of the shelf." --Nido Qubein, author of How to Get Anything You Want; President, High Point University; Chairman, Great Harvest Bread Company; and founder, National Speakers Association Foundation "Results That Last is long overdue and fills a big gap in effective business management. There are legions of books that show us the way to achieve successful results in business, but very few that teach us how to institutionalize success. In reality, achieving success is the easy part. The real challenge is to achieve results that last. Quint Studer not only proves it is possible to hardwire a culture for lasting results, but lays out a simple, logical, and effective way to do so. Anyone who wants to make success a habit needs to read this book." --Bob MacDonald, former CEO, Allianz Life of North America and author of Beat the System: 11 Secrets to Building an Entrepreneurial Culture in a Bureaucratic World "I have always been fascinated by how the various parts of an organization work together to achieve strategic objectives. In Results That Last, Quint Studer explores the complex subject of performance improvement in a fresh, readable, and easy-to-grasp way. By standardizing certain business practices and leader behaviors, any company in any field can create an environment that allows it to achieve and sustain long-term results." --David F. Gianetto, coauthor of The Performance Power Grid: The Proven Method to Create and Sustain Superior Organizational Performance

Wall Street Journal Bestseller "The pick of 2014's management books." --Andrew Hill, Financial Times "One of the top business books of the year." --Harvey Schacter, The Globe and Mail Bestselling author, Robert Sutton and Stanford colleague, Huggy Rao tackle a challenge that determines every organization's success: how to scale up farther, faster, and more effectively as an organization grows. Sutton and Rao have devoted much of the last decade to uncovering what it takes to build and uncover pockets of exemplary performance, to help spread them, and to keep recharging organizations with ever better work practices. Drawing on inside accounts and case studies and academic research from a wealth of industries-- including start-ups, pharmaceuticals, airlines, retail, financial services, high-tech, education, non-profits, government, and healthcare-- Sutton and Rao identify the key scaling challenges that confront every organization. They tackle the difficult trade-offs that organizations must make between whether to encourage individualized approaches tailored to local needs or to replicate the same practices and customs as an organization or program expands. They reveal how the best leaders and teams develop, spread, and instill the right mindsets in their people-- rather than ruining or watering down the very things that have fueled successful growth in the past. They unpack the principles that help to cascade excellence throughout an organization, as well as show how to eliminate destructive beliefs and behaviors that will hold them back. Scaling Up Excellence is the first major business book devoted to this universal and vexing challenge and it is destined to become the standard bearer in the field.
