Zonas Umidas (Feuchtgebiete, no original em alemão) é um romance erótico escrito por Charlotte Roche, com mais de um milhão de exemplares vendidos . Críticas "Este é um livro que exige certamente um estômago forte."
📖 Times Online "Sua história é também um manifesto contra uma cultura que vende desodorizadores de ambiente e desodorantes vaginais."

A PBS Great American Read Top 100 Pick With extraordinary relevance and renewed popularity, George Orwell’s 1984 takes on new life in this edition.
📖Orwell saw, to his credit, that the act of falsifying reality is only secondarily a way of changing perceptions. It is, above all, a way of asserting power.📖The New Yorker In 1984, London is a grim city in the totalitarian state of Oceania where Big Brother is always watching you and the Thought Police can practically read your mind. Winston Smith is a man in grave danger for the simple reason that his memory still functions. Drawn into a forbidden love affair, Winston finds the courage to join a secret revolutionary organization called The Brotherhood, dedicated to the destruction of the Party. Together with his beloved Julia, he hazards his life in a deadly match against the powers that be. Lionel Trilling said of Orwell’s masterpiece, 📖1984 is a profound, terrifying, and wholly fascinating book. It is a fantasy of the political future, and like any such fantasy, serves its author as a magnifying device for an examination of the present.📖 Though the year 1984 now exists in the past, Orwell’s novel remains an urgent call for the individual willing to speak truth to power.

NEW YORK TIMES BESETSSELLER 📖📖Those who relish suspense in the Da Vinci Code vein will snap this one up, the best yet in the series.📖Publishers Weekly (starred review) As a child, former Justice Department agent Cotton Malone was told that his father died in a submarine disaster in the North Atlantic. But what he now learns stuns him: His father’s sub was a secret nuclear vessel lost on a highly classified mission beneath the ice shelves of Antarctica. Twin sisters Dorothea Lindauer and Christl Falk are also determined to find out what became of their father, who died on the same submarine—and they know something Malone doesn’t. Inspired by strange clues discovered in Charlemaigne’s tomb, the Nazis explored Antarctica before the Americans. Now Malone discovers that cryptic journals penned in [the language of heaven,📖 conundrums posed by an ancient historian, and his father’s ill-fated voyage are all tied to a revelation of immense consequence for humankind. As Malone embarks on a dangerous quest with the sisters, he will finally confront the shocking truth of his father’s death and the distinct possibility of his own. BONUS: This edition contains an excerpt from Steve Berry’s The Columbus Affair and a Cotton Malone dossier.

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman “I come from a country that was created at midnight. When I almost died it was just after midday.” When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala’s miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls’ education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person’s voice to inspire change in the world.

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder’s unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

In 1945, after his capture at the end of the Second World War, Hermann Göring arrived at an American-run detention center in war-torn Luxembourg, accompanied by sixteen suitcases and a red hatbox. The suitcases contained all manner of paraphernalia: medals, gems, two cigar cutters, silk underwear, a hot water bottle, and the equivalent of 1 million in cash. Hidden in a coffee can, a set of brass vials housed glass capsules containing a clear liquid and a white precipitate: potassium cyanide. Joining Göring in the detention center were the elite of the captured Nazi regime/Grand Admiral Dönitz; armed forces commander Wilhelm Keitel and his deputy Alfred Jodl; the mentally unstable Robert Ley; the suicidal Hans Frank; the pornographic propagandist Julius Streicher; fifty-two senior Nazis in all, of whom the dominant figure was Göring. To ensure that the villainous captives were fit for trial at Nuremberg, the US army sent an ambitious army psychiatrist, Captain Douglas M. Kelley, to supervise their mental well-being during their detention. Kelley realized he was being offered the professional opportunity of a lifetime: to discover a distinguishing trait among these arch-criminals that would mark them as psychologically different from the rest of humanity. So began a remarkable relationship between Kelley and his captors, told here for the first time with unique access to Kelley’s long-hidden papers and medical records. Kelley’s was a hazardous quest, dangerous because against all his expectations he began to appreciate and understand some of the Nazi captives, none more so than the former Reichsmarshal, Hermann Göring. Evil had its charms.

Em "O Cortiço", acompanhamos a história de João Romão, português obcecado por ascensão social. Para tanto, não mede limites nem obstáculos. Trabalha compulsivamente, economiza cada tostão, aproveita-se da amante, explora empregados. Começa com uma venda e expande seus negócios com a construção do cortiço e a compra de uma pedreira. Neste clássico da literatura brasileira, Aluisio Azevedo faz um retrato contundente e, muitas vezes, transgressor da sociedade carioca do final do século XIX e faz de "O Cortiço" um dos representantes mais preciosos do Naturalismo brasileiro. Prefácio de Eneias Tavares, Professor na UFSM e autor de Brasileira Steampunk

As one of the many installments in Jules Verne’s Voyage Extraordinaire series, Journey to the Center of the Earth promises high stakes and thrilling adventure. When Professor Otto Lidenbrock bought an ancient runic manuscript, which chronicles the lives of Norwegian Kings, he did not expect to learn of anything but the history of Icelandic leaders. However, upon further inspection, Lidenbrock and his nephew, Axel, find that the manuscript includes a coded message written by a 16th century alchemist. After rigorous translating and decoding, Axel and Lidenbrock discover the content of the note, in which the author reveals that it is possible to travel to the center of the Earth through volcanic passages. When Lidenbrock heard the news, he immediately started preparations to start the journey, though Axel was skeptical. When Lidenbrock’s will proves to be more powerful than his nephew’s doubt, the two decide to make the journey, recruiting an Icelandic tour guide named Hans on the way. As the three men make their way to inactive volcanic tubes, they embark on a high-stake adventure, facing dangers of cave-ins, subpoler tornados, an underground ocean and prehistoric creatures. The three men stay strong in their adventure, knowing the risky journey promises superior knowledge and acclaim, granted that they make it out alive. With the combination of science fiction and the adventure genre, Jules Verne created a novel that captures the attention of his audience. Originally published in 1864, Journey to the Center of the Earth still provides modern readers with entertainment and insight with its detailed and imaginative prose. Journey to the Center of the Earth can be read independently or as a companion to the other titles of Jules Verne’s critically acclaimed series, Voyage Extraordinaire. This edition of Journey to the Center of the Earth by Jules Verne now features an eye-catching cover design and is printed in a stylish and readable font, crafting an assessible and pleasant reading experience for modern audiences.

Thirteen passengers are stranded at an airport. Tokyo, their destination, is covered in snow and all flights are cancelled. To pass the night they form a huddle by the silent baggage carousels and tell one another stories. Thus begins Rana Dasgupta’s Canterbury Tales for our times. In the spirit of Borges and Calvino, Dasgupta’s writing combines an energetically modern landscape with a timeless, beguiling fairy-tale ethos, while bringing to life a cast of extraordinary individuals—some lost, some confused, some happy—in a world that remains ineffable, inexplicable, and wonderful. A Ukrainian merchant is led by a wingless bird back to a lost lover; Robert De Niro’s son masters the transubstantiation of matter and turns it against his enemies; a man who manipulates other people’s memories has to confront his own past; a Japanese entrepreneur risks losing everything in his obsession with a doll; a mute Turkish girl is left alone in the house of a German man who is mapping the world. Told by people on a journey, these are stories about lives in transit, stories that grow into an epic cycle about the hopes and dreams and disappointments that connect people everywhere.

The best-selling novel about a slave revolt in ancient Rome and the basis for the popular motion picture.
