In 2019, America is bordering on financial collapse after engaging in a third conflict in Iraq. On the home front, the president has provided funding for stem cell research, but medical success is overshadowed after corporate greed intervenes. The intention to benefit those with the greatest need quickly disappears as the replication process is used to clone all major organs. With the advent of cloning, the inevitable occurs when America's population reaches the saturation point. A chip is now implanted into all citizens, which signals when someone reaches the mandatory age of death. Years left on a chip are for sale, and the hunt for new chips is on. Meanwhile, overseas, the war rages, where people die irrespective of age. Lieutenant Roger DeMarco must put an end to the murder of entire innocent Iraqi villages by those who would harvest the enemy and civilians alike. Doctors are caught on opposing sides of science, and even a reality TV star becomes of national interest when he sells his chip and plans to slowly kill himself in a parade of hedonism. Progress, profit, and morality collide with stunning ferocity as America must evolve or die.

****Now on Netflix as The Call to Courage**** 'She's so good, Brené Brown, at finding the language to articulate collective feeling' Dolly Alderton Every time we are faced with change, no matter how great or small, we also face risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - or feel guilt for feeling them in the first place. In a powerful new vision Dr Brené Brown challenges everything we think we know about vulnerability, and dispels the widely accepted myth that it's a weakness. She argues that, in truth, vulnerability is strength and when we shut ourselves off from vulnerability - from revealing our true selves - we distance ourselves from the experiences that bring purpose and meaning to our lives. Daring Greatly is the culmination of 12 years of groundbreaking social research, across every area of our lives including home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly.

An unforeseen attack on his father, a disaster on Earth, and the added weight of responsibility take their toll on the young man, who suddenly finds himself struggling to save the ones he loves.

#1 NEW YORK TIMES BESTSELLER • A timely and important book that challenges everything we think we know about cultivating true belonging in our communities, organizations, and culture, from the #1 bestselling author of Rising Strong, Daring Greatly, and The Gifts of Imperfection Look for Brené Brown's new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! REESE'S BOOK CLUB PICK \"True belonging doesn't require us to change who we are. It requires us to be who we are.\" Social scientist Brené Brown, PhD, MSW, has sparked a global conversation about the experiences that bring meaning to our lives—experiences of courage, vulnerability, love, belonging, shame, and empathy. In Braving the Wilderness, Brown redefines what it means to truly belong in an age of increased polarization. With her trademark mix of research, storytelling, and honesty, Brown will again change the cultural conversation while mapping a clear path to true belonging. Brown argues that we're experiencing a spiritual crisis of disconnection, and introduces four practices of true belonging that challenge everything we believe about ourselves and each other. She writes, \"True belonging requires us to believe in and belong to ourselves so fully that we can find sacredness both in being a part of something and in standing alone when necessary. But in a culture that's rife with perfectionism and pleasing, and with the erosion of civility, it's easy to stay quiet, hide in our ideological bunkers, or fit in rather than show up as our true selves and brave the wilderness of uncertainty and criticism. But true belonging is not something we negotiate or accomplish with others; it's a daily practice that demands integrity and authenticity. It's a personal commitment that we carry in our hearts.\" Brown offers us the clarity and courage we need to find our way back to ourselves and to each other. And that path cuts right through the wilderness. Brown writes, \"The wilderness is an untamed, unpredictable place of solitude and searching. It is a place as dangerous as it is breathtaking, a place as sought after as it is feared. But it turns out to be the place of true belonging, and it's the bravest and most sacred place you will ever stand.\"
