So, in an effort to work through some of the historic cases I sat down to read Denning's first book The Discipline of Law and was amazed. Denning had a reputation for presenting complex issues in simple language and using narrative to describe the facts of the case. To give an idea, one of his judgements (Hinz v. Berry) famously begins as follows:

"The underlying theme of this book is that the principles of law laid down by the Judges in the 19th century--however suited to social conditions of the time--are not suited to the social necessities and social opinion of the 20th century. They should be moulded and shaped to meet the needs and opinions of today. The Discipline of Law is a fascinating account of Lord Denning's personal contribution to the changing face of the law in this century." -- from publ. descr.

Two central themes run through this book. The first is the workings of the various 'measures authorised by the law so as to keep the streams of justice pure', and the second is the recent development of family law, focusing particularly on Lord Denning's contribution to the law of husband and wife.

Two central themes run through The Due Process of Law. The first is the workings of the various "measures authorised by the law so as to keep the streams of justice pure" - that is to say, contempt of court, judicial inquiries, and powers of arrest and search. The second is the recent development of family law, focusing particularly on Lord Denning's contribution to the law of husband and wife. These broad themes are elaborated through a discussion of Lord Denning's own judgments and opinions on a wide range of topics.

Lord Denning draws from a wide range of sources to support his arguments and incorporates coverage of many different cases, including that of the Russell baby, the Granada 'mole' and the case of Harriet Harman, all of which are selected on the grounds that 'the experience of the past points the way to the future'. The book also discusses the proposals for law reform which have come from numerous Royal Commissions, Departmental Committees and Blue Books and which were all rejected by successive governments at the time of publication.

Written in Lord Denning's familiar vivid, staccato style, Landmarks in the Law discusses cases and characters whose names will be known to all readers, grouped together under headings such as High Treason, Freedom of the Press, and Murder. Thus, for example, the chapter on High Treason tells the stories of Sir Walter Raleigh, Sir Roger Casement, and William Joyce - three very different cases, the first occurring nearly 350 years before the last, but each one raising constitutional issues of the greatest importance.

Lord Denning retired in 1982 aged 83. Lord Hailsham said of him that it was given to few to be a legend in their own lifetime. He said that Denning's strength lay in his rugged independence and unwillingness to tolerate injustice.
