Wooden Gear Clock : 9 Steps (with Pictures) - Instructables

Making a wooden gear clock. About 6 months ago I was scrolling through Amazon (we all know how dangerous that is) when I came across the book "Making wooden gear clocks" and I was intrigued. I clicked the buy it now box and 2 days later the book arrived. After skimming through it, I decided that I liked the Genesis clock and that was the clock that I would build.

Making a Wooden Gear Clock - Part 1 - by Loxaco, Inc ...

My initial worries about making a wooden clock was completely unfounded. The plans by Claton Boyer is excellent and the Number 6 clock is extremely forgiving. All the gears was cut by hand, and even so, it runs extremely smoothly. I did make some small changes to the design.

Building a Wooden Clock - Induku Design

The current clock design was initially developed using the ideas used in the Minute Engine. Using the Swiss lever escapement with a balance wheel has been a project I have tried a couple of times before to incorporate into a wooden clock project, but I have never really successfully incorporated the hair spring when made from wood, the Hair spring itself is an integral part of the Escapement ...

Brian Law's Wooden Clocks - Brian Law's Woodenclocks

Cutting clock gears. The question I get asked most is (How do you make the gears),or more often, where did you purchase them? For most of us our first gears (clockmakers call them wheels) will be to a existing plan, so we will have the necessary data 1- Number of teeth 2- Module or DP of the teeth (the size) 3- The size of the blank.

Cutting clock gears. - Brian's Workshop Clock making ...
