Specifically designed to help candidates revise for the MRCS exam, this two-volume pack features 350 Single Best Answer multiple choice questions, and 250 Extended Matching Questions, divided into 96 themes, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A, the pack focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and

Access Free Mcqs And Emqs For The Diploma In Otolaryngology Head And Neck Surgery Masterp Masterp Series

pathology) to the management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, positively-worded questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as factual recall questions, prompting basic recall of facts.

With over 1000 essential questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery, 26th edition. The book assists trainee surgeons as they prepare for examinations and enables them to test their knowledge of the principles and practice of surgery as outlined in Bailey & Lo

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-s

The Diploma in Otolaryngology - Head & Neck Surgery (DOHNS) is now an intercollegiate examination, and can count towards membership of one of the surgical colleges of Great Britain. The DOHNS has evolved to fit its new role, leaving little up-to-date material available for candidates preparing for the written component. This book by former DOHNS candidates meets that need, focusing on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates.

Specifically designed for the current requirements of the MRCS examination, this book reflects the balance between basic science and clinical surgery. Each core and system chapter contains both multiple choice and extended matching questions. Additionally, it includes detailed explanations, and is ideally suited to preparation for this examination.

This is an indispensable companion to the 'Sunflower book' – the highly acclaimed Illustrated Textbook of Paediatrics (6th Edition). It is essential for those who wish to test or improve their learning, or for exam revision for undergraduate or early postgraduate speciality exams. It includes high quality questions, some including images or diagrams, on important topics covering the paediatrics and child health curriculum.

Explanations about both correct and incorrect answers are provided. The authors are highly experienced examiners and question writers, ensuring that the questions are similar to those encountered in exams or help explain difficult topics. Over 250 Single Best Answer questions Over 200 question stems for Extended Matching questions Explanations provided not only of the correct but also of incorrect answers Clinical photographs included to ask questions about clinical signs

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-specific sections, both MCQs and EMQs provide a comprehensive coverage of the surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.
